## *A Message from LICA*

*Long Island Cauliflower Association would like to thank you for your continued support and want to wish you and your community continued health and peace.*

*We have all faced some new challenges during this unprecedented time, but we will continue to serve our community as best we can. As you know, Long Island Cauliflower has an important role to play by continuing operations to best serve our community.*

*As we start our 122nd year, our goal, as always, is to provide the finest quality products and services to our customers.*

*We are committed more than ever to the success and future of Long Island Cauliflower Association. John E. Bokina, Jr., CEO, and the board of directors, some of whom are descendants of our founders, and our dedicated staff look forward to continuing to grow and keep Long Island Cauliflower the #1 farm and garden center on Long Island.*

*Long Island Cauliflower has expanded its growing business and now has a beautiful garden and gift center.*

*Remember, shop local, shop small business, shop the best at Long Island Cauliflower Association.*

**We Also Carry  
SNOW SHOVELS**

## ICE MELTS Selection

### **NEW!** Cutting Edge® Pro PowerMelt+

Cutting Edge® Pro PowerMelt+ is a unique and effective ice melt blend infused with Calcium Chloride, Potassium Chloride, and Sodium Chloride using Patent Pending Breakthrough Infusion Technology.™

### **Rock Salt**

Optimally screened for use in salt spreaders and to maximize coverage. Economical.

### **ProSpeed Ice Melter**

Designed for high-performance need. Optimized blend of calcium chloride and traditional melting salt generates heat to melt ice and snow faster and longer than rock salt alone. Melts as low as -25°F. Calcium Chloride and Sodium Chloride.

### **Safe T Pet**

A safer choice for pets. Developed with, and recommended by Veterinarians. 100% salt and chloride-free, it won't irritate paws, safer for plants, pets and concrete. Blue color for better visibility. Proven to melt snow and ice -10°F and above. Contains Urea and Propylene Glycol.

### **BLUE HEAT**

with Calcium Chloride Pellets

Considered to be one of the highest grade ice melters. It has enough Calcium Chloride Pellets to melt snow and ice down to 25 degrees below zero. In addition, it also has a slight blue tint. The blue tint lets consumers know where the product has already been applied thereby avoiding over-application. **Blue-Heat** does not chemically attack concrete and is safer to use than low grade ice melts.

**50-LB  
PAIS  
AVAILABLE**

### **Natural Ice Control**

100% Organic made from natural beet juice with pure rock salt added. It is less corrosive, safer for children and pets, safer for vegetation. Saves you time and money and reduces salt use by 30%.

### **Calcium Chloride Pellets**

It has been recognized by the industry as the most effective ice melter. It melts ice upon contact and is among the most powerful substances available today for melting snow and ice. Most De-icers become virtually ineffective once the temperature drops below 20 degrees while Peladow keeps on melting even at temperatures as cold as 25 degrees below zero. It is also safer to use and does not chemically attack concrete.

# Soil Amendments

## Lime Bagged

Pelletized – Hi-Cal / Dolomitic

Pulverized – Hi-Cal / Dolomitic

Granular – Hi-Cal / Dolomitic

# All Your Landscape Needs from One Source!

LebanonTurf is the only company that offers both microbiological components along with advanced controlled release fertilizer products delivered as part of an integrated "Best of All Worlds®" system's approach to turf and plant care needs. We continue to explore and develop the industry's most advanced technologies to deliver the ultimate in efficient, cost effective lawn operations.

LebanonTurf offers ProScape and Lebanon Pro fertilizer and combination products in an easily and accurately applied granular product. In the ProScape brand you will find exclusive technologies such as Meth-Ex®, a high efficient methylene urea and MESA®, a specially formulated nitrogen that delivers brilliant color response. Lebanon Pro is a cost-effective blended fertilizer providing a practical approach in a wide range of lawn, landscape and general turf situations. Lebanon Pro contains LSN to ensure that nitrogen gets delivered to the turf and does not escape into the atmosphere through volatilization.

The ROOTS® brand of biologically enhanced nutrients merge nature and technology to offer leading edge solutions for turf and plant care. ROOTS provides an all-in-in nutrient delivery system that feeds the plant while enhancing the biological life of the soil and plant ecosystem and provides consistent color response, improved turf density and enhanced root mass.

LebanonTurf's selections of award-winning seed varieties have been chosen after careful research and development to deliver quality and performance.

# Lawn and Commercial Mixes

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

## LICA Elite Turf Mixture

This Elite mix was developed to respond well to a high maintenance schedule of grooming, irrigation, and fertilization. All varieties of Bluegrass are blue-tagged certified. This mixture features disease resistance and dark green color grasses for a "sod quality" lawn.

**Seeding Rate:** 4-6 lbs/1000 sq. ft.

30% Mazama Kentucky Bluegrass  
 25% Milagro Kentucky Bluegrass  
 15% Leeward Chewing Fescue  
 15% Appalachian Kentucky Bluegrass  
 10% Allstar Fore Perennial Ryegrass  
 5% Bandalore Perennial Ryegrass

<u>5 lbs.</u>	<u>25 lbs.</u>	<u>50 lbs.</u>
\$30.50	\$122.55	\$208.50

## LICA Sunny Mixture

Versatile, tough and attractive. This mixture will respond well to a medium to low maintenance schedule of fertilization and grooming, plus gives you the drought tolerance where lack of moisture may be a problem. This mixture has excellent adaptability to various soil conditions as well as excellent disease resistance.

**Seeding Rate:** 6-8 lbs/1000 sq. ft.

20% Moonlight Kentucky Bluegrass  
 30% Leeward Chewing Fescue  
 10% Appalachian Kentucky Bluegrass  
 20% Allstar Fore Perennial Ryegrass  
 20% Fiesta Cinco Perennial Ryegrass

<u>5 lbs.</u>	<u>25 lbs.</u>	<u>50 lbs.</u>
\$26.70	\$112.90	\$188.25

## LICA Sun & Shade Mixture

The elite variety of Bluegrass, fine leaf perennial ryegrass, and red fescue that we have selected, will give you the combination of dark color, disease resistance, traffic tolerance, and shade tolerance that the quality conscious homeowner needs. This is an excellent mixture for most lawns on Long Island.

**Seeding Rate:** 4-6 lbs/1000 sq. ft.

25% Mazama Kentucky Bluegrass  
 20% Leeward Chewing Fescue  
 25% Maxima Creeping Red Fescue  
 10% Allstar Fore Perennial Ryegrass  
 10% Bandalore Perennial Ryegrass  
 10% Sword Hard Fescue

<u>5 lbs.</u>	<u>25 lbs.</u>	<u>50 lbs.</u>
\$29.90	\$120.55	\$200.20

## LICA Shady Mixture

We have blended shade tolerant elite Bluegrass and improved fine fescue with fine leaf perennial ryegrass for the best combination of shade tolerance and quick cover available. Because of the combination of shade tolerance and disease tolerance, this mixture will perform in environments where other lawn mixes just will not. This mixture will also do well in sandy, acidic soils or low maintenance areas.

**Seeding Rate:** 5-7 lbs/1000 sq. ft.

25% Maxima Creeping Red Fescue  
 25% Leeward Chewing Fescue  
 15% Sword Hard Fescue  
 15% Mazama Kentucky Bluegrass  
 20% Shining Star Per. Ryegrass

<u>5 lbs.</u>	<u>25 lbs.</u>	<u>50 lbs.</u>
\$30.20	\$120.70	\$202.90

# Lawn and Commercial Mixes

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

## LICA Tri-Rye Mixture

This blend of Fine Leafed Perennial Ryegrass varieties was developed for quality and consistency. We use varieties that provide a consistent disease package, color and winter survivability from year to year. For quick and temporary cover, this blend will do an excellent job for you. Use for touchup and over seeding.

**Seeding Rate:** 6-8 lbs/1000 sq. ft.

33% Palmer III Perennial Ryegrass

35% Santiam Perennial Ryegrass

32% Metolius Perennial Ryegrass

5 lbs.	25 lbs.	50 lbs.
\$20.50	\$81.70	\$135.50

## LICA Farmingdale Mixture

This is a standard mixture of Bluegrass, fine fescue, and improved fine bladed perennial ryegrass. Will do well on Long Island lawns at a reasonable price. Contains no annual ryegrass.

**Seeding Rate:** 6-8 lbs/1000 sq. ft.

30% Maxima Creeping Red Fescue

20% Fiesta Cinco Perennial Ryegrass

20% Bandalore Perennial Ryegrass

30% Moonlight Kentucky Bluegrass

5 lbs.	25 lbs.	50 lbs.
\$24.60	\$98.25	\$165.70

## LICA Tall-Ryegrass 90/10 Mixture

Tri-Tall Fescue Rye 90/10 Mixture is a blend of three elite turf-type tall fescues specifically selected for Long Island exhibits outstanding dark green color and fine texture with improved mow-ability and is one of the most drought and wear tolerant of cool season grasses. Ryegrass added for speed and soil retention

**Seeding Rate:** 8 lbs/1000 sq. ft.

<u>5 lbs.</u>	<u>25 lbs.</u>	<u>50 lbs.</u>
\$22.25	\$89.10	\$149.50

## LICA No-Mow Fescue Mixture

This mixture is a combination of improved Fine Fescues. No-Mow was developed for low maintenance areas such as thick tree stands with heavy shade and hillsides. The stand will thrive where mowing is difficult or impossible and will reach a maximum height of 10 to 12 inches when not mowed. Once established, requires little if any watering or fertilizing and minimizes weed growth.

**Seeding Rate:** 6-8 lbs/1000 sq. ft.

30% Boreal Creeping Red Fescue  
 15% Maxima Creeping Red Fescue  
 15% Sword Hard Fescue

## LICA Ecology Mixture

Designed for ecologically fragile areas when fertilizer use is discouraged or banned. Ideal for un-mown slopes and low maintenance sites. Sun or shade.

**(Made to Order)**

**Seeding Rate:** 4-6 lbs/ 1000 sq. ft.

75% Sword Hard Fescue  
25% VNS Chewing Fescue

<u>25 lbs.</u>	<u>50 lbs.</u>
\$135.00	\$224.90

## Forage Mixtures

### King's Horse Supreme

Forage type Kentucky Bluegrass gives this mix excellent longevity and dense cover. Paddock meadow brome and grazing tolerant orchardgrass add drought productivity while the diploid ryegrass gives it a quick start and excellent spring and fall production.

**Seeding Rate:** 25 to 30 lbs/Acre

37% Grazing Tolerant Orchardgrass  
20% Montana Meadow Brome  
20% Diploid Perennial Ryegrass  
15% Balin Kentucky Bluegrass  
6% European/Premium Timothy  
2% Dutch White Clover

33 lbs.  
\$225.65 per bag

### Equinemaster Paddock Mix

This mixture is made of grasses that have been selected because they are well suited for horses and are more durable than other pasture grass varieties. Even though this mix is more durable than conventional pasture mixes, it is important (as with all pasture plantings) to allow the grass to properly establish **before** you allow your horse back into the planted area and to rotate out of the paddock to maintain the viability of the grasses.

**Seeding Rate:** 50-100 lbs/Acre

35% Tetra-Maga Ryegrass  
30% Atlas Tall Fescue  
5% 98/85 Kentucky Bluegrass  
20% Boreal Creeping Fescue  
10% Climax Timothy

25 lbs.  
\$162.50 per bag

### Great Gains Northern Mixture

Is the only proven High-Sugar Grass mixture formulated for progressive US cattle operations. High Sugar Grasses are extremely drought and cold tolerant. Its pasture will regenerate each year — even after difficult weather conditions. The increased sugar levels occur naturally, and do not require extra fertilizer. The naturally quick growth rate of HSGs crowd out weeds and reduce the need for herbicides even on heavily grazed paddocks.

**Seeding Rate:** 10-15 lbs/Acre

<u>25 lbs.</u>	<u>50 lbs.</u>
\$162.50	\$275.00

### Pasture Perfect Show Horse

It is a mix of highly palatable varieties that make super quality forage. Excellent season long forage. Can also be used for hay.

**Seeding Rate:** 35-50 lbs/Acre

40% Tekapo Orchard Grass  
5% Tuukla Timothy Bluegrass  
5% Ken-Blue Bluegrass  
30% Duo Festulolium  
20% Tonga Tetraploid Ryegrass

## Forage Mixtures

### Rackmaster Trophy Radishes

Establishes and grows fast producing up to 5,000 lbs. per acre dry matter of lush green top growth and another 2,000 lbs. per acre of edible root mass - both of which deer find highly attractive. To attract and provide nutrition for deer. To build soil organic matter and improve soil tilth.

**Seeding Rate:** 10 lbs./acre (1/4 lb. per 1000 sq.ft.) alone or 3-5 lbs./acre (1-2 oz. per 1000 sq.ft.) in mixtures.

5 lbs.  
\$44.00

### Rackmaster Chicory

Is a blend of high yielding perennial forage chicory varieties that supplies a highly palatable, high protein and energy rich food source for deer and other wildlife throughout the spring and summer months and into fall.

**Seeding Rate:** 10 lbs./acre alone (4 oz./1000 sq.ft.) or 4 lbs. per acre in mixes (1.5 oz./1000 sq.ft.) or (2-1/2 lbs. per 1000 sq.ft.)

5 lbs.  
\$57.75

### Rackmaster Fall Deluxe Deer Mixture

Is a combination of winter annual grasses, legumes and brassica species that attract deer and provide the carbohydrates needed to help the deer herd build up stored fat to maintain good body condition through the rut and winter stress period. Also provides excellent habitat for quail and turkey. It features RapidResults seed germination enhancement technology which promotes quicker emergence and stronger, deeper root growth.

**Seeding Rate:** 100 lbs./acre or  
2-1/2 lbs. per 1000 sq.ft.

50 lbs.  
\$52.50

### Rackmaster Deer Greens

Is a 100% mixture of brassicas including rape, purple top turnip, kale and Trophy Radish that provides an abundant high protein and energy rich diet for deer. It germinates quickly to provide an immediate high protein food source to help fill seasonal nutritional gaps.

5 lbs.  
\$40.75

### Rackmaster Deer Grazer

Is a mixture including rape, purple top turnip, Trophy Radish and crimson clover that provides an abundant high protein and energy rich diet for deer. It germinates quickly to provide an immediate high protein food source to help fill seasonal nutritional gaps.

**Seeding Rate:**  
5 lbs per 1/2 acre or  
10 lbs. per acre or 1/4 lb. per 1000 sq.ft.

5 lbs.  
\$40.75

### Rackmaster Supreme Fall

Is a custom blend of highly succulent and nutritious winter annual grains, brassica, winter peas and annual clovers designed to attract and provide the nutrition needed by the entire deer herd for maximum growth and optimum health.

**Seeding Rate:** 100 lbs./acre or  
2-1/2 lbs. per 1000 sq.ft.

50 lbs.  
\$52.50

(Forage Mixtures continued on next page)

**Note:** Mix Formulations are subject to change without notice depending upon availability of existing and new products. While the formula may change, the guiding philosophy and function of the mix will not.

## Forage Mixes *(continued)*

### Pasture Sweet'ner Northern Mixture

Improve the quality of existing pastures with SucraSEED's high-sugar grass mix for over seeding. The naturally quick growth rate of HSGs crowd out weeds and reduce the need for herbicides even on heavily grazed paddocks. SucraSEED mixes' rapid re-growth is extraordinary, delivering tremendous yields, this can allow farms to take hay crops after a full season of grazing.

**Seeding Rate:** 15-18 lbs/Acre

<u>25 lbs.</u>	<u>50 lbs.</u>
\$135.25	\$245.88

### Sweet Spot Northern Mixture

Sweet Spot mixes feature High Sugar Grasses. These unique perennial ryegrasses can produce bigger racks and as much as 20% more body mass. Sweet Spot is a perennial wildlife mix that establishes quickly, winters well and creates fool-proof food plots year after year. High Sugar Grasses are extremely drought and cold tolerant.

**Seeding Rate:** 15-20 lbs/Acre

<u>10 lbs.</u>	<u>20 lbs.</u>
\$95.00	\$158.00

**Note:** Mix Formulations are subject to change without notice depending upon availability of existing and new products. While the formula may change, the guiding philosophy and function of the mix will not.

# Cut and Wildflowers

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

## Bachelor Button

**FS-BB-BA:** Sometimes referred to as a Cornflower. A drought tolerant annual, grows 2 to 3 feet tall. Prefers full sun in various soil types. An outstanding performer for cutting or admiring.

Oz	1/4 lb	1-4 lbs
\$3.00	\$4.75	\$17.15/lb.

## Cosmos Mix

**FS-CO-MX:** A hardy, erect annual requiring very little moisture once established. The attractive flowers are a mixture of stunning deep crimson, soft pink which can grow to be 2 to 3 feet tall. Requires full sun.

Oz	1/4 lb	1-4 lbs
\$3.00	\$5.45	\$21.75/lb.

## Cosmos White

**FS-CO-WH:** A hardy, erect annual requiring very little moisture once established. The attractive flowers are pure white which can grow to be 2 to 3 feet tall. Requires full sun.

Oz	1/4 lb	1-4 lbs
\$3.00	\$6.30	\$25.75/lb.

## Marigold Crackerjack

**FS-MA-CRAC:** Annual. Height 2½ to 3 feet. Very popular large flowering variety. Large flowers average 4 inches in diameter. Flowers range in shades of yellow, gold and orange. Ideal for garden color or as cut flowers.

Oz	1/4 lb	1-4 lbs
\$3.00	\$4.75	\$17.50/lb.

## Nasturtium (Jewel)

**FS-NA-NAST/JEWLB:** A low bush or trailing plant 8 to 12 inches tall. Trailing plants may extend almost a yard. Leaves are bright green and rounded and the bright flowers come in several colors. Nasturtiums are an attractive and nutritious addition to salads, as the flowers are edible.

Oz	1/4 lb	1 lb
\$3.00	\$6.50	\$15.65

## Corn Poppy Red

**FS-PA-RR:** Annual flower, they are 2 to 2½ feet in height. The large 2 to 4 inch blooms are fire engine red. Prefers well-drained soil in full sun to partial shade. Performs best if sown in early spring in the northern regions.

Oz	1/4 lb	1-4 lbs
\$3.00	\$8.85	\$31.40/lb.

## Norlin Blue Flax

**FS-WF-FL:** They are 12 to 14 inches high. Numerous light blue, cup-shaped flowers bloom well into the summer. Prefers dry, full sun areas in light sandy soil. Flowers last only a single day.

Oz	1/4 lb	1-4 lbs
\$3.00	\$11.20	\$44.30/lb.

## Black Eyed Susan

No summer garden is complete without the bright, cheerful splash of color of Black Eyed Susan. This 12-36 inches tall plant is versatile, drought-tolerant and easy-to-grow variety illuminates the landscape with golden blooms. It is a native plant and will attract pollinators to the garden or meadow all summer long.

Oz	1/4 lb	1-4 lbs
\$3.00	\$8.80	\$35.20/lb.

## Balsam 'Bush Mix' Impatiens

**FS-PA-ICE:** Balsam 'Bush Mix' is unique in having flowers form at the top of the plant, instead of along the stem. It grows 16 to 24 inches tall and has mostly double flowers in shades of rose, salmon, white, scarlet and violet.

Oz	1/4 lb	1 lb
\$3.00	\$7.50	\$28.95

## Snap Dragon Rocket

YELLOW - RED - PINK- WHITE.

The best tall snapdragon, the 30-36 in. plants produce densely packed spikes of fragrant flowers in a wide range of shades. They are among the very best of cut flowers.

25 M	1 M
\$3.45	\$13.60

## Cut and Come Again Zinnia

**FS-ZI-CC:** The Zinnia "Cut and Come Again" produces 2 to 3 inch flowers in shades of orange, pink, rose, magenta, yellow, cream and scarlet. When flowers have been cut off, these easy to grow plants will replace them in a short period of time.

Oz	1/4 lb	1 lb
\$3.00	\$5.80	\$23.10

## California Giant Zinnia

**FS-ZI-CG:** This mix offers 4 to 6 inch flowers in an almost limitless range of colors. For long, hot summers. Excellent in large pots or containers in sunny, warm spots.

Oz	1/4 lb	1 lb
\$3.00	\$7.50	\$28.95

# Cut and Wildflowers

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

## Benery Giant Zinnia

A classic and superior strain of giant zinnia originating from a historic German seed company, the Benery's Giant Series features large, double blossoms of approximately 4–5" in diameter, in multiple, magnificent colors.

*Prices to be Determined*

## Zinnia State Fair Mix

This annual semi-double dahlia-type bloom up to 6" across on tall plants. Color range includes shades of lavender, pink, orange, purple, scarlet, and white.

1/4 oz	Oz	1/4 lb
\$13.65	\$54.60	\$218.53

## Oklahoma Zinnia

YELLOW-PINK-SALMON-SCARLET-WHITE- CARMINE  
The Oklahoma Zinnia series offers medium-sized, sturdy double and semi-double blooms. A reliable accent flower, the Oklahoma series has an excellent vase life, and the plants are less susceptible to powdery mildew than other Zinnia varieties. Deadhead the blooms to prolong flowering and promote branching.

1/16 oz	1/4 oz	Oz
\$4.50	\$18.10	\$72.30

Come and see our expanded Selection of Zinnia

## Peppermint Stick Zinnia

A vintage cultivar that has been around for decades. The flowers have red stripes and speckles and come in a mix of cream, orange, white and yellow.

*Prices to be Determined*

## Stop Sign Zinnia Mix

Composed of our 'Cherry Queen' and 'Polar Bear' Zinnia varieties and is recommended for cut flower bouquets as well as beds and borders. Zinnias are also great for attracting butterflies.

*Prices to be Determined*

## MISCELLANEOUS

Coral Zinnia has 4-5-inch-wide flowers that are a beautiful coral color. Dark Violet Zinnia has 4-5-inch-wide flowers that are a deep violet color. Rose Zinnia has 4-5-inch-wide flowers that are a rosy pink. Zinnia's plants are fast-growing and long blooming, they make good cut flowers. In addition, they are excellent for pollinator plantings and are especially attractive to butterflies.

*Prices to be Determined*

# AccuBlu™

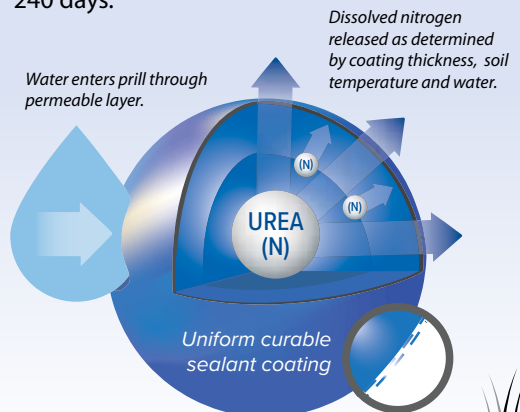

## CONTROLLED RELEASE NITROGEN

**AccuBlu™ is a patented, coated, controlled-release PCU nitrogen source designed to provide a reliable and predictable source of nitrogen over a specified length of time.**

- Precise technology – A patented uniform curable sealant coated nitrogen source providing predictable release over a specified time period. Nutrient release from 45 to 240 days.
- Superior technology – Uniform curable sealant coating allows for a metering of the nitrogen to the plant over the desired time frame as compared to the catastrophic release of SCU.
- Supports and exceeds the BMP recommendations and the 4R Nutrient Stewardship program – right source/right rate/right time/right place.

## How it works

Uniform curable sealant coating allows for a predictable metering of nitrogen to the plant over the desired time frame from 30 to 240 days.

# Wildflower Mixes

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

## Long Island Wildflower Mixture

This is a mix of annual and perennial wild flower selected for the Long Island conditions.

**Mix components:** Baby's Breath, Cornflower Larkspur, Rocket Flax, Blue Coreopsis, Lance-Leaved Coneflower, Purple Daisy, Ox-Eye Poppy, Corn Dame's Rocket, Black-Eyed Susan Catchfly Yarrow, White and Gold Yarrow.

**Seeding Rate:** 5 oz. per 1,000 sq. ft., 8-10 lbs./1 acre

Oz	1/4 lb	1 lb
\$3.00	\$6.75	\$27.75

## Long Island Shade Wildflower Mixture

This mixture can tolerate shade conditions or filtered sunlight. It is a mix of annual and perennial wild flowers selected for the Long Island conditions.

**Mix components:** Forget-Me-Not, Chinese Candytuft, Baby Blue-Eyes Coneflower, Purple Coreopsis, Lance-Leaved Baby's Breath, Annual Larkspur, Rocket Poppy, Corn Daisy, Shasta Pinks, Sweet Williams, Chinese Houses, Snapdragon, Spurred Johnny Jump-up, Clarkia Columbine, Giant Columbine, Dwarf Forget-me-Not, Bellflower, Tussock.

**Seeding Rate:** 4 oz. per 1,000 sq. ft., 9-11 lbs./1 acre

Oz	1/4 lb	1 lb
\$3.00	\$8.75	\$32.05

## All Season Mixture

This annual mixture provides an ever-changing rainbow of colors throughout the growing season.

**Mix components:** African Daisy, Annual Baby's Breath, Black-Eyed Susan, California Bluebell, California Poppy, Candytuft, Catchfly, China Aster, Chinese Forget-Me-Not, Corn Poppy, Deerhorn Clarkia, Dwarf Godetia, Dwarf Plains Coreopsis, Rocket Larkspur, Spurred Snapdragon and Virginia Stock.

**Seeding Rate:** 4 oz./1,000 sq. ft., 4-8 lbs./1 acre

1/4 lb	1 lb
\$8.50	\$34.00

## Wonderland Sweet Alyssum

WHITE - PURPLE. A vigorous, rounded, semi-trailing variety that is heat tolerant, and ideal for mixed containers and hanging baskets. Its tiny narrow leaves remain grayish green in color throughout the season. Dependent upon availability, the variety may be substituted for a plant of similar quality.

1 M
\$3.00

## Deer Resistant Mixture

This annual and perennial mixture is a blend of garden flowers and wildflowers that are known to be resistant to deer browsing. Keep in mind that if natural food supplies are low, or local populations of deer are dense, even these plants may be browsed by deer.

**Mix components:** Bergamot, Blue Sage, California Poppy, Four O'Clocks, Foxglove, French Marigold, Gaura, Gold Yarrow, Lavender, Lavender Hyssop, Lemon Mint, Perennial Lupine, Rocket Larkspur, Sweet Alyssum & Sweet William Pinks.

**Seeding Rate:** 4 oz./1,000 sq. ft.

4-8 lbs./1 acre

1/4 lb	1 lb
\$7.90	\$32.15

## Russell Lupine Wildflower Mixture

It grows up to 3 feet tall and produces flower spikes in blue, pink, red, or white. Flowers appear from late May to mid-June and attract hummingbirds. Plants prefer full sun and moderate to moist conditions. Use in beds & borders or for meadow gardening. Plants and seeds are poisonous to livestock.

**Seeding Rate:** 14 oz./1,000 sq. ft.

40 lbs./1 acre

Oz	1/4 lb	1 lb
\$3.20	\$12.50	\$45.50

## Cut Flower Seed Mixture

This mixture is composed of long-lasting cut flowers. Nothing brightens up a room like a vase of fresh flowers. Mix contains both annuals and perennials to provide cut flowers for many years to come.

**Mix components:** Annual Baby's Breath, Bishop's Flower, Blanketflower, China Aster, Clarkia, Cosmos, English Wallflower, Gloriosa Daisy, Iceland Poppy, Lance-Leaved Coreopsis, Mexican Hat, Painted Daisy, Perennial Lupine, Plains Coreopsis, Purple Coneflower, Rocket Larkspur, Shasta Daisy, Sulphur Cosmos and Sweet William Pinks

**Seeding Rate:** 7 oz./1,000 sq. ft.

10-20 lbs./1 acre

Oz	1/4 lb	1 lb
\$3.00	\$11.10	\$44.40

If these mixes do not meet your needs or you are looking for other flowers, call us and we will work with you to find just what you need.

# Sunflowers

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

## Mammoth Grey Stripe

Bright, golden-yellow flowers up to 10" across. Attracts birds. Each plant produces one flower. Great-tasting seeds for roasting and snacking. Height: 72 to 84"

Oz	1/4 lb	1 lb
\$3.00	\$5.75	\$8.90

## Autumn Beauty

Bold, beautiful flowers up to 8" across. Bright yellow, bronze, and purple shades with some bicolor. Multi-branching; produces many long stems. Height: 60"

1 oz	1/4 lb	1 lb
\$3.00	\$5.75	\$8.90

## Lemon Queen

Abundant lemon yellow flower. 6" blooms. Dark centers. Height: 5"

1 oz	1/4 lb	1 lb
\$3.00	\$5.75	\$8.90

## Soraya

It has larger flowers and thicker, sturdier stems. Tangerine petals, dark center. Branches average 20" and sport 4" to 6" blooms. May yield as many as 20 to 25 stems/plant.

100 Seeds = \$3.50  
Bulk M = \$33.05  
Discount available

## Ring of Fire

Single petal develop dark red around the base of each; yellow tips with a dark center; disc 5" to 6" in size. Branching. Height: 40 to 50"

100 Seeds = \$6.60  
M = \$65.75  
Discount available

## Sunspot

One of the easiest flower seeds to grow, are great for containers and flower beds, and they only reach 24 to 36" tall with an average sized single 10" head.

1 oz	1/4 lb	1 lb
\$3.00	\$5.75	\$8.90

## Velvet Queen Sunflower

Deep velvety crimson blooms accented with traces of yellow around a black center. The plants are free branching, bearing lots of 5-6" blooms that are lovely for cutting. Can reach height of 5' tall.

Oz	1/4 lb	lb
\$3.00	\$5.75	\$8.90

## Dwarf Sungold Sunflower

This unique Sunflower has an extremely soft texture and is truly a fun statement in the garden. A shorter variety, is perfect for the border of the garden and makes fabulous cut flowers. Can reach height of 24-36" tall.

Oz	1/4 lb	lb
\$3.00	\$5.75	\$8.90

## Sunrich Series

Long considered the industry standard, the Sunrich varieties are ideal for cutflower production because they are pollenless and non-branching. When spaced 6" apart, flowers will grow to 5" to 6" in diameter on mid-height plants. Day length neutral. Matures in approximately 65 to 70 days.

100 Seeds = \$6.10  
M = \$60.60 Discount available

### • Sunrich Gold

Flower color: Golden  
Disc color: Light

### • Sunrich Lemon

Flower color: Yellow  
Disc color: Dark

### • Sunrich Orange

Flower color: Orange  
Disc color: Dark

## Pro Cut Series Sunflower

Medium tall plants produce clean 3 to 4" flowers on a single stem. Day neutral. Matures in approximately 50 days.

100 Seeds = \$5.95  
M = \$59.20  
Discount available

### • Pro Cut Gold

Flower color: Golden  
Disc color: Yellow

### • Pro Cut Orange

Flower color: Orange  
Disc color: Brown

### • Pro Cut Red

Flower color: Muted Red  
Disc color: Brown

### • Pro Cut Plum

Flower color: Pink to reddish mauve  
Disc color: Dark Brown

## Chocolate Cherry

Seductive branching sunflower blooms with a ring of chocolate-burgundy petals around dark chocolate disks. You can't help but gaze as the velvety petals entice with their dark good looks. Express your style with these alluring beauties.

Oz	1/4 lb	lb
\$3.00	\$5.75	\$8.90

## Wildlife Sunflower

They tend to be tall growing and produce compact seed heads which can reach diameters in the inches on some varieties. Sunflowers can be grown with almost any wildlife food plots and provide a high-quality oil content seed needed for the healthy growth of all wildlife species

1 lb	50# Bag
\$5.50	\$94.80

# INNOVATIVE SOLUTIONS FOR GREEN INDUSTRY PROFESSIONALS.

THREE GROUNDBREAKING HERBICIDES THAT PROVIDE DEPENDABLE POWER AND CONSISTENT VALUE.

## QUINTESSENTIAL®

Unique, patent-pending formulation powered by H-Value™ Technology, a proprietary performance additive that increases efficacy. Get unrivaled performance in conditions that limit absorption - like untimely rains or irrigation - and improved crabgrass control, particularly in the challenging 3-5 tiller stage.

## SUBLIME™

The one-of-a-kind, three-way power of Sublime gives you innovative, true broad-spectrum control. Its balanced blend of triclopyr, dicamba, and mesotrione delivers unsurpassed control of broadleaf weeds, from perennials to woody species as well as certain grassy weeds.

## TRIAD T SELECT™

A popular tank mix now available in a convenient premix formulation. This proprietary amine formulation of Triad Select™ plus triclopyr provides powerful broad-spectrum, postemergence control of some of the toughest annual and perennial broadleaf weeds in a range of turf types.

# Field Corn Types

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

## SCS 1043

**Days: 104**

- Conventional, non-Roundup Ready
- Widely adapted yield leader for maturity
- Proven, consistent performance in SCI testing
- Outstanding agronomics and disease tolerance

## SCS 851Q

**Days: 85**

- Top End Yield Potential - Roundup Ready
- Drought tolerant, excellent NCLB Tolerance
- Great for various soil types, best performance on average or better soil
- Girthy ear with nice flex

## SCS 931Q

**Days: 93**

- Roundup Ready
- Elite yields in Eastern Corn Belt
- Exceptional Grain Quality
- Impressive girthy ear with flex
- Strong foliar resistance to NCLB

## SCS 1018AMXT

**Days: 101**

- Roundup Ready
- Dual purpose hybrid–Silage and Grain
- Outstanding drought tolerance
- Excellent grain quality, food grade potential
- Exceptional grain health and stay green

## SCS 1042Q

**Days: 104**

- Yield leader in Maturity, Roundup Ready
- Good Northern Leaf Blight Tolerance
- Hybrid meant for the Eastern Corn Belt
- AQUA Amax
- Excellent Silage Yield & Digestibility

## SCS 10HR43

**Days: 104**

- Roundup Ready
- Widely adapted yield leader for maturity
- Proven, consistent performance in SCI testing
- Outstanding agronomics and disease tolerance

## SCS 1071Q

**Days: 107**

- Roundup Ready, Excellent Stress Emergence
- Hi yielding Hybrid w/ Eastern Genetics
- Above average weight, below average height
- Great package against Eastern diseases

## SCS 1087AM

**Days: 108**

- Roundup Ready, girthy ear with nice flex
- Multi year dominant yield performance
- Outstanding hybrid targeted for Eastern Corn Belt soils
- Elite genetics with strong drought tolerance

## SCS 1122Q

**Days: 112**

- Roundup Ready
- Hybrid, combines top end yield, good stability
- Good drought tolerance, suited for various soil types
- Grey leaf tolerance, good Northern leaf blight tolerance

## SCS 1158Q

**Days: 115**

- Eastern Corn Belt genetics & plant health
- Drought tolerant
- Tall structure, outstanding stalks & roots
- Excellent grain quality, food grade potential
- 115 day hybrid w/excellent dry down

# Organic Field Corn

## SCS 1043N (Organic)

**Days: 104**

- Proven, consistent performance in SCI Testing
- Outstanding agronomics & Disease tolerance
- Adapted yield leader for maturity

## SCS 1087N (Organic)

**Days: 108**

- Outstanding hybrid for eastern Corn Belt soils
- Elite genetics w/good plant health
- Drought tolerance, Girthy ear with nice flex

# Bi Color Corn Seeds

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

## Takeoff

69 days. This high quality, augmented yellow offers excellent field holding ability, and excellent yield potential. Large 7 ¾ 8.5" ears are produced on clean, sturdy 6' plants. The ears fill well to the tip with 16-18 rows of bright deep yellow kernels. The ears are tightly covered with an attractive, deep green husk and excellent flags. Isolation required.

1/4 lb	1 lb	M
\$12.79	\$50.75	\$11.85

## Montauk

79 days. Large, sweet ears. Has become a grower favorite for its girthy, eye-appealing 8" ears, outstanding eating quality, and very high yield potential. An exceptional husk package with dark green flag leaves covers the tip well, and ears snap easily off the 6½ to 7' clean and sturdy plant. The cylindrical ears are filled well to the tip with 16 to 20 rows.

1/4 lb	1 lb	M
\$11.56	\$46.24	\$15.63

## Providence

82 days. TripleSweet bicolor sweet corn. Has a superb eating quality that is suited for roadside and farm markets sales. 6½' plants hold ear at 24" and have intermediate resistance to common rust. Refined 8" ears have 14 to 18 rows.

1/4 lb	1 lb	M
\$10.14	\$40.54	\$12.57

## Xtra Tender 274

74 days. This Xtra-Tender bicolor sweet corn offers superb eating quality and tenderness. Very refined 8" ears are produced on sturdy plants with few tillers and have 18 to 20 rows of nicely contrasted yellow and white kernels. A dark green husk with a long dark green flags cover the very tender and very sweet kernels well over the tip. Isolation required.

1/4 lb	1 lb	M
\$11.88	\$37.38	\$14.50

**Special Bulk Prices  
are Available**

## Latte

68 days. Is an early maturing synergistic bicolor that has outstanding quality for an early variety. This early hybrid has good cold soil performance with the sweetness, tenderness and flavor of many main season varieties. Its 5'8" plant sets the 7½ to 8" ears at 20" and has intermediate resistance to rust and Stewart's Wilt.

1/4 lb	1 lb	M
\$10.65	\$42.59	\$15.46

## Cuppa Joe

74 days to maturity. Is a synergistic bicolor with great quality and extremely high yield potential. It has good cold soil tolerance and produces well filled, large 8 to 8½" ears with 14 to 16 rows of yellow and white kernels. Intermediate resistance NCLB, common rust and Stewart's Bacterial Wilt.

1/4 lb	1 lb	M
\$9.89	\$39.58	\$13.42

## Kickoff XR Cor

69 days. Flavorful first-early super sweet (sh2). Excellent seeding vigor. New benchmark for flavor in this maturity slot. Exceptional quality. Large, attractive ears 7 ¾ - 8". Excellent husk package and tip fill. High resistance to common rust.

1/4 lb	1 lb	M
\$10.19	\$40.77	\$15.50

## Sweet Corn Raquel

72 days. This high quality, augmented supersweet bicolor offers excellent field holding ability, and excellent yield potential. Large 8-8.5" ears are produced on clean, sturdy 6' plants. The ears fill well to the tip with 16-20 rows of bright white and deep yellow kernels. The ears are tightly covered with an attractive, deep green husk and excellent flags. Isolation required.

1/4 lb	1 lb	M
\$13.10	\$43.99	\$13.10

# White/Yellow/Ornamental Corn Seeds

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

## Delectable

84 days. This rigged plant is tolerant to Stewart's Wilt and common rust. It produces large, 8½ to 9" ears very well filled with 18 to 20 rows of delicate, deep yellow and white kernels. Plant it later for fall corn roasts. The large, fancy ears of Delectable are hard to beat.

<u>1/4 lb</u>	<u>1 lb</u>
\$10.58	\$21.16

## Café Yellow Corn

68 days. Café's 7 1/2–8 inch ears are stuffed with 14 rows of sunny yellow, tender kernels that are brimming with height-of-the-season, sweet flavor. It also handles cooler soil temperatures better than other synergistic varieties.

<u>1/4 lb</u>	<u>1 lb</u>	<u>M</u>
\$9.15	\$36.50	\$14.35

## Silver King

82 days. Plant produces good yields of delicious sweet white corn. Ears are 8" long and have 16 rows of white kernels. Disease Resistant: Stewart's Wilt, Northern Corn Leaf Blight, Common Rust. Plants require warm (65°F/18°C) soil to germinate properly.

<u>1/4 lb</u>	<u>1 lb</u>
\$11.16	\$22.32

## Fiesta

100 days. Bright and showy. A must for your autumn decorations. Multicolored ornamental corn. Husk color ranges from light green to deep purple. Note: isolate ornamental corn from other corn to prevent cross pollination.

<u>1/4 lb</u>	<u>1 lb</u>
\$8.83	\$17.66

## Bodacious

75 days. Very high quality flavor and sweetness that holds for days after picking. Its wide adaptability in northern latitudes, early maturity and consistent performance has made it the most popular variety in its class.

<u>1/4 lb</u>	<u>1 lb</u>
\$10.55	\$21.10

## Top Pop

100 days. The vigorous, upright plants of this hybrid produce big crops of good sized yellow ears. Its deep kernels pop to large sunbursts that are tender and delicious.

<u>1/4 lb</u>	<u>1 lb</u>	<u>M</u>
\$5.74	\$22.96	\$5.50

# Plants – Not Just Seeds

**Minimum order for plants is by crate or box, which is 500 to 750 plants**

Seeds are purchased 15% over the required amount.

*Example: A 1,000-plant order would need 1,150 seeds purchased.*

**1st Shipment:**

Order by March 15th ..... Arrival May 20th

**2nd Shipment:**

Order by April 15th ..... Arrival June 20th

**Some of the varieties that are ordered are:**

Mountain Fresh, Pony Express, and Celebrity Tomatoes  
King Arthur, Declarations Peppers  
Epic Eggplants  
Athena and Aphrodite Melons

**If we can get the seed, we can get you the plants.**

Prices are determined at the time of order.

# Onions

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

## Texas Supersweet

Yellow, globe shaped. The perfect onion to add to your garden. They have an off-white flesh and are very sweet and flavorful. Known for its great flavor and large size, disease resistant.

Storage: Approx. 2 - 3 months

## Texas Early White

White, globe-shaped. If you want a white onion that has a great reputation for ease of growing, flavor, and disease resistant.

Storage: Approx. 2 months

## The Texas Legend

Yellow, globe-shaped, sweet. Matures 10 to 14 days earlier than the Texas Supersweet. Revered for its uniformity. Specifically bred for more healthful benefits.

Storage: Approx. 3 - 4 months

## Yellow Granex

Yellow, semi-flat, sweet, hybrid. They will be the sweetest variety in your garden! This variety was approved through vigorous testing to be allowed to be called a Vidalia onion.

Storage: Approx. 1 month

## Candy

Our most popular variety! Yellow, globe-shaped, sweet, hybrid. The most popular and recommended variety we offer! This onion is great for anyone that has never had much success growing onions.

Storage: Approx. 3 months

## Red Candy Apple

Deep red, flattened globe shape, sweet, hybrid. A reliable red intermediate day onion year after year.

Storage: Approx. 2 - 3 months

## Highlander

Yellow, slightly flat globe shaped, sweet, hybrid. This is the main variety planted by large onion farmers in the Northeastern United States for early marketing.

Storage: Approx. 4 - 5 months

## Walla Walla

Yellow, semi-flat, sweet. A customer favorite for years for its flavor and ease in growing. This is one of our best selling long day onions.

Storage: Approx. 1 month

## Yellow Spanish

Yellow, globe shaped, mild. They grow quickly without much effort. This is the favorite onion grown by commercial growers in northern states because it makes uniformly large, sweet bulbs.

Storage: Approx. 4 months

## Red Wing

Red, globe shaped, slightly pungent, hybrid. Simply the best long day red onion grown in the Northern areas. Deep internal red color continues to develop during storage.

Storage: Approx. 8 - 10 months

## Ringmaster

White, globe shaped, mild. Has large bulbs with firm white rings surrounding a single center. The sweet and mild with its large, dark green tops is also a favorite for green onions.

Storage: Approx. 4 months

### 1 to 4 Bundles

**\$9.75/bundle**

### 5 to 29 Bundles

**\$8.95/bundle**

### 30 Bundles (or 1 box) Inquire for large orders

**Roughly 50-75 plants per bunch.**

### **15 Bundles or More: \$10.25/bundle**

## Alisa Craig

Yellow, globe shaped, sweet. This heirloom onion is by far the largest onion you can grow in a short growing season.

Storage: Approx. 1 month

## Patterson

Yellow, globe shaped, slightly pungent, hybrid provides great storage potential, 10-12 months longest firmness,

with larger size potential 3-4", better uniformity, and higher yield potential compared to Copra.

## Red Zeppelin

Dark red, globe shaped, slightly pungent, hybrid. It is brilliantly colored throughout, but it will store up to 8 months! A balanced combination of flavor and shelf life.

Storage: Approx. 6 - 8 months

## Lancelot Leeks

Long, white shafts have blue/green upright flag. As long as you keep blanching them (throwing dirt up on the shaft), they will continue to grow. These long 12-14" shafts are ideal for appearance and flavor.

**1-4 Bundles**  
**\$10.75/bundle**

**30 Bundles (or 1 box)**  
**\$TBD/bundle**

*Roughly 50-65 plants per bunch.*

Last date to order is **March 15**. Available week ending **April 19**.

Date is subject to change based on weather conditions.

# Strawberries

## **AC Wendy = 1**

This early-season variety was developed by the Kentville Research Station in Nova Scotia. The berry is wedge-shaped to conic with firm, bright, red-colored flesh. Wendy has an excellent fresh flavor. This early season variety's attractive, high-quality berries maintain their large size through several pickings. makes this variety a good choice for commercial and home use.

## **Darselect = 2**

Is a highly productive, widely adapted variety for plasticulture or matted row production Darselect is rated as good to excellent for size, color, appearance, and plant vigor. Its sweet, tasty fruit was rated very good for flavor and firmness. Has shown some susceptibility to leaf diseases. Darselect requires good amounts of nitrogen, and appropriate amounts of magnesium and potassium during fruit growth to enhance its performance.

## **Galletta = 2**

It ripens early in the season and produces large sized berries. Attractive, glossy fruit has an excellent flavor. Galletta is highly productive and holds fruit size well through the season. The plant is vigorous and shows tolerance to foliage diseases. It has tolerance to red stele disease. This is a variety that will grow in heavy soil.

## **Jewel = 3**

A top mid-season variety, recommended for commercial growers and home gardeners. Jewel has large berries with superb quality and flavor. Jewel performs well over a wide range of growing conditions. Care must be taken at renovation to maintain a good plant stand.

## **Earliglow = 3**

"Wonderful strawberry flavor" is this variety's trademark. Earliglow fruit has a very firm, glossy skin, medium firm flesh, and medium size. Its sweet flavor makes the variety excellent for fresh eating and freezing. Fruit size decreases as the season progresses. Earliglow plants are very vigorous and runner well. This variety has good resistance to red stele and intermediate resistance to Verticillium wilt.

## **Flavorfest = 1**

Is a mid-season variety, adapted to both plasticulture and matted row production. Fruits are an attractive bright red color with an excellent flavor profile. Berries are large and hold their size through the season. Plants are vigorous and show excellent disease resistance to red stele and leaf diseases. Flavorfest will also be a good alternative for organic producers and in conditions where good plant vigor is required.

## **Honeoye = 1**

Has been a top variety for over 30 years. It combines winter hardiness, high productivity, good appearance, and color, with an excellent, firm, large-sized berry. The large berries are easy to pick and produce high yields over a long fruiting season, making it our most consistent berry producer. Optimum flavor is produced by growing this variety in medium to light soil. It's a vigorous plant with no soil disease resistance.

## **Dickens = 1**

Produces large, firm fruit that ripen in late mid-season starting at the end of the Jewel season and continuing for 10 days after Jewel. The fruit has a short conic shape and produces multiple fruiting laterals. This variety fruits to a good, sweet flavor with a bright red skin color and red interior. Productivity has been very good in trials exceeding Jewel and Winona, with larger average fruit size. In trials in Ontario, Dickens showed good Phytophthora root rot resistance in replant sites and good vigor through renovation.

## **Yambu = 1**

Is an early mid-season variety, ripening similar season to Honeoye, one of its parents. Plants are very vigorous with dark green color, and we have not experienced foliage disease pressure to this point. Yambu has no special nutrient requirements. Fruits are bright red color, attractive, with uniform shape and glossy skin. Yambu fruits for a long season and has shown to be very productive.

## **Cabot = 2**

Is known for its huge berries, excellent flavor, winter hardiness and disease resistance. It is by far the best tasting big berry ever! Results indicate Cabot is best adapted for northern locations and where very large fruit size is required. First fruits may split or be rough. Plants are vigorous but may not run freely, indicating closer spacing may be required

**1 = Patented**

**2 = Un-Patented**

**3 = Open**

# Strawberries

## **Cavendish = 2**

Is the result of a cross between two varieties known for their winter hardiness and attractive, large fruit. It produces high yields that ripen over a long growing season. Excellent flavor and overall quality of the fruit. Cavendish is highly resistant to red stele and has some resistance to Verticillium wilt.

## **AC Valley Sunset\* = 1**

A late-season variety that will ripen 5-7 days later than Cabot. Plants show good vigor with no apparent foliage disease concerns. Berries are lighter red, shiny and large-sized. The flavor and yield are very good. With its softer skin, fruit is best suited for local, fresh markets to extend the season.

## **Evie-2 = 3**

Commercial growers will want to plant this variety. This day-neutral is easier to grow, higher yielding and less sensitive to the warm summer temperatures that shut down day-neutral production in the East and Midwest. Berries have an attractive red color, good flavor and maintain good size. In fruiting trials, Evie-2 produced the largest spring crop of any day-neutral variety we have tested to date.

## **Albion = 1**

Produces very large fruit that is mostly conical, very firm, and red in color. Its flavor is very good for a day neutral. To get the high yields it can produce, this variety will need a stronger watering and nutrient program than any other everbearer. Wider plant spacing will deliver the largest berries.

## **Malwina\* = 1**

Is a high quality, very late season variety. Fruits are glossy, and dark red having excellent flavor with high Brix readings. Berries are large and hold berry size well through the season. Regular pickings are suggested to maintain fruit firmness. With its very vigorous growth habit, nitrogen fertilizer needs to be managed to avoid excessive vegetative growth. Malwina shows resistance to mildew and tolerance to Verticillium wilt and red stele. Malwina is an excellent variety to extend the strawberry season.

## **Seascape = 1**

This day-neutral has been highly successful for north-eastern growers for summer and fall production. The plants have the potential to be the most productive of any day neutral. The berries are large, firm and have good flavor when picked ripe from the plant. Seascape is considered by our customers to have the best flavor of any of our everbearer.

25 Plants per Bundle  
20 Bundles per Case = 1,000 + plants

**1 = Patented**  
**2 = Un-Patented**  
**3 = Open**

**Patented – 1**  
\$36.00/bundle

**Un-Patented – 2**  
\$32.65/bundle

**Open – 3**  
\$29.30/bundle

Last date to order is **April 15**. Orders will still be accepted, but after that date the amounts and varieties cannot be guaranteed. Available week ending **May 8**.

Date is subject to change based on weather conditions.

*Discounts after 10, 25, and 40 bundles. All discounts are based on amounts purchased. Amounts and Varieties cannot be guaranteed.*

# Blueberries

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

## Reka

Reka Blueberry is one of the fastest growing and most adaptable varieties we have seen. A very vigorous variety, it grows well in light sandy soils, peat and heavier clay loams and is more tolerant to wetter ground than many other varieties. Fruit is an attractive dark-blue color and the plant produces large crops. Its winter hardiness is rated equivalent to Bluecrop.

*Berry Size:* Large      *Firmness:* Firm  
*Flavor:* Excellent      *Winter Hardy:* Good

## Duke

Duke blueberry is an early-season variety and is extremely popular in the Mid-Atlantic region. It is high-yielding and hardy. The attractive fruit is medium to large, light blue, and slightly tart. Berries maintain their uniform quality better than most other varieties. Duke grows upright to a height of 4–6 feet.

*Berry Size:* Medium      *Firmness:* Very  
*Flavor:* Excellent      *Winter Hardy:* Good

## Bluecrop

The leading commercial blueberry variety grown. It produces high yields of large, bright blue berries that are firm and grow in large clusters. The berry flavor is superb, fresh or frozen. Bluecrop is known for its hardiness, vigor and consistent production. The plant grows to a height of 4 to 6 feet.

*Berry Size:* Large      *Firmness:* Very  
*Flavor:* Excellent      *Winter Hardy:* Excellent

## Patriot

Patriot is an early variety released by the University of Maine, where growing seasons are short and winter hardiness is a must. This variety is vigorous and grows upright to a height of 4–6 feet. Patriot adapts to many different soil types and has performed better in heavier soil than some other varieties. The fruit is large and has very good flavor.

*Berry Size:* Large      *Firmness:* Moderate  
*Flavor:* Excellent      *Winter Hardy:* Excellent

## Chandler

Chandler is a mid to late season blueberry plant with the largest berry of any available variety on the market today. Chandler will fruit over a period of 4–6 weeks and has very nice flavor. This variety is vigorous, with a spreading habit of 5–6 feet. Chandler is probably not hardy enough for the more northern areas but should do well in zones 5–7.

*Berry Size:* Very large      *Firmness:* Moderate  
*Flavor:* Excellent      *Winter Hardy:* Good

## Blueray

Blueray is an early-midseason blueberry variety that ripens a few days before Bluecrop. The large, dark-blue berries, with sweet, high-quality flavor, make Blueray an excellent choice for the home gardener. The bush is vigorous, productive, and winter-hardy. It grows to a height of 4–6 feet. Blueray is widely planted throughout the Northeast and Midwest.

*Berry Size:* Large      *Firmness:* Firm  
*Flavor:* Excellent      *Winter Hardy:* Excellent

## Jersey

Jersey blueberry is a late-season variety that is easy to grow, high-yielding, and one of the oldest and most widely grown blueberry varieties. The berries are dark blue, medium in size, and very sweet. A tall and well-shaped bush, it has excellent ornamental value.

*Berry Size:* Medium      *Firmness:* Firm  
*Flavor:* Excellent      *Winter Hardy:* Excellent

## Elliot

Elliot blueberry plants are very productive and grow vigorously and upright. Elliott is considered the latest of all varieties, fruiting through September. This variety is winter hardy. Berries are medium-sized, firm and have a light-blue color. Fruit needs to be picked fully ripe for best taste. This variety is a good choice for extending the growing season.

*Berry Size:* Medium      *Firmness:* Firm  
*Flavor:* Good      *Winter Hardy:* Good

## Blueberries

\$18.50 per individual. Discount after 10 plants. Last date to order is **April 15**. Orders will still be accepted, but after that date the amounts and varieties cannot be guaranteed. Available week ending **May 8**.  
Date is subject to change based on weather conditions.

# Blackberries & Other Berries

## Chester

Considered one of the more winter hardy and productive thornless varieties available, produces large, high-quality fruit that ripens in early to mid-August. Fruit has good flavor and does not soften or lose its shiny black color in hot weather. Chester plants are vigorous and show resistance to cane blight.

*Berry Size:* Large

*Firmness:* Firm

*Flavor:* Excellent

## Triple Crown

The plant is semi-erect and thornless and bears large, flavorful fruit. Early trials indicate that it may ripen earlier than Chester and is similar to Chester in winter hardiness. Triple Crown would be a good choice to help extend the blackberry season for home gardeners.

*Berry Size:* Large

*Firmness:* Moderate

*Flavor:* Excellent

## Sweet-Ark® 45

Is a new blackberry release from the University of Arkansas' breeding program. It is a thorny primocane-bearing blackberry with an erect growing habit. Fruit size is medium-large, and trials indicate that Prime-Ark® 45 is more productive.

## Pink Champagne Currant

is a vigorous upright bush, free of leaf diseases, with a beautiful translucent pink fruit. Pink Champagne is easy to grow, produces fruit of high quality and good flavor. This is the tastiest currant on the market for fresh eating! \$22.25 per individual

## Hinnomaki Red Gooseberry

is a variety from Finland with superb flavor, high yields, and a beautiful red fruit color. The outer skin is tangy while the flesh is sweet. The plants grow upright and are mildew resistant. These very productive plants are adaptable to various growing systems, hedge or ornamental. The sweet berries can be eaten fresh or baked in a pie. \$22.25 per individual.

### Blackberries

\$33.50 per bundle (5 plants per bundle) Come in 32 liner size.

Last date to order is **April 15**. Orders will still be accepted, but after that date the amounts and varieties cannot be guaranteed. Available week ending **May 8**.

Date is subject to change based on weather conditions.

# Raspberries

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

## Himbo Top®

This variety produces extremely large, firm, bright red fruit that does not darken. Berries have good flavor, are conic shaped, have small, well-constructed drupelets and are easy to pick. This variety is extremely vigorous and will require less fertilizer. We feel it has the potential to be the most productive of any variety we offer today.

*Berry Size:* Very Large    *Firmness:* Firm  
*Flavor:* Good  
\$18.30 per bundle

## Prelude

Prelude is identified as the earliest ripening summer red raspberry, ripening in mid-June under NY conditions. Although Prelude is also fall-bearing, it produces the biggest portion of its crop in the spring. Very winter hardy and vigorous, Prelude berries are round-conic, coherent, with very good flavor. An excellent choice when early fruit and quality are required.

*Berry Size:* Medium/Large    *Firmness:* Firm  
*Flavor:* Excellent  
\$18.30 per bundle

## Polana

Polana allows you to grow fall varieties in more northern locations and still produce a great crop. Its berries are highly productive, large, glossy in appearance, coherent, with good flavor. Canes are vigorous and grow shorter than those of Heritage. Ripens early August in southern New England. A great choice for early fall raspberries. Polana needs extra fertilizer in May and June.

*Berry Size:* Medium/Large    *Firmness:* Moderate  
*Flavor:* Good  
\$18.30 per bundle

**LIMITED**

## Anne

Anne has special characteristics. Anne is a large-fruited fall bearer that ripens at the same time as Heritage. Fruit holds a pale yellow color and is proving to be highly productive. Anne's excellent size, appearance, and very sweet flavor make it an excellent choice for a yellow fall bearer.

*Berry Size:* Large    *Firmness:* Firm  
*Flavor:* Excellent  
\$18.30 per bundle

## Jewel

Jewel is our most popular **black raspberry** variety. It produces excellent yields of superb quality berries. The fruit is glossy black in color, a large size, and has a rich raspberry flavor. It is an excellent choice for use in jams and jellies. Jewel is winter hardy and a very reliable choice.

*Berry Size:* Large    *Firmness:* Firm  
*Flavor:* Good  
\$33.05 per bundle

## Encore

Encore is vigorous, sturdy, upright, nearly spineless and has excellent winter hardiness. Berries are large with very cohesive drupelets and good raspberry flavor. Encore is a good choice for extending the summer raspberry-picking season and offers high yields required by commercial growers.

*Berry Color:* Red    *Berry Size:* Large  
*Firmness:* Firm    *Flavor:* Good  
*Winter Hardy:* Excellent  
\$18.30 per bundle

## Joan J

This high-yielding, thornless, early primocane raspberry variety fruit is large and holds its size well. Berries are firm, easy picking (they release well) with small drupelets and good flavor. The fruit will hold and ship well, as it is dry. Highly recommended for planting when early fruit is required.

*Berry Color:* Red    *Berry Size:* Large  
*Firmness:* Firm    *Flavor:* Excellent  
*Winter Hardy:* Good  
\$18.30 per bundle

Raspberries: 5 per bundle  
Discount after 4 bundles  
We offer large order discounts.

Last date to order is **April 15**. Orders will still be accepted, but after that date the amounts and varieties cannot be guaranteed. Available week ending **May 8**.

Date is subject to change based on weather conditions.

# Asparagus

## Purple Passion Asparagus

It is a unique asparagus variety especially suited to the asparagus enthusiast, whether home gardener or commercial grower. Its special, attractive purple color, flavor and tenderness distinguish this variety from others. It has productive yields. Different plant spacing is 6 to 8 inches apart in the row—instead of the usual 12” spacing—will increase production.  
25 per bundle  
\$40.00 per bundle

# Rhubarb

## Millennium Asparagus

Has been productive, with high quality spears, tender, and has good flavor. Thought to be best adapted to heavier soils, but results from our grower survey indicate success with a wide range of soil types.  
25 per bundle  
\$45.00 per bundle

# Horseradish

## Mary Washington Asparagus

Mary Washington Asparagus is an outstanding variety. This strong grower produces large, rich, green stalks. Bonus, it's rust resistant. Make sure you plant in full sun, a well-drained site but moist soil. Asparagus plants need a lot of room to grow, so make sure you pick a spot where they can flourish. 25 per bundle  
\$37.50 per bundle

## MacDonald Rhubarb

This very vigorous, upright growing strain produces large, tender stalks and has acceptable red color. Shows resistance to root-rot problems.  
\$17.55 per individual

## Cawood Rhubarb

It has a stout growth habit that will excel in northern areas, has deeper red color and slightly thicker stalks. It may struggle in areas with long periods of high heat. We have had a lot of positive feedback on this variety from commercial growers and home gardeners.  
\$20.25 per individual

## Big Top Horseradish

Big Top for its size, vigor, wide adaptability and resistance to foliage diseases, rust and bacterial spot (all common problems in horseradish). These horseradish plants are top performers; a few roots will last a lifetime!

Horseradish:  
\$26.75 per bundle  
5 per bundle

### Asparagus, Rhubarb, Horseradish:

Last date to order is **April 15**. Orders will still be accepted, but after that date the amounts and varieties cannot be guaranteed. Available week ending **May 8**.

Date is subject to change based on weather conditions.

## Planting Asparagus Crowns

Most people will turn to planting asparagus crowns when considering how to make an asparagus bed. Planting crowns will establish your asparagus bed faster so that you can harvest the asparagus sooner.

When the asparagus arrives, it will be dry looking. Soak it in tepid water for two to three hours before you're ready to plant. Asparagus planting instructions recommend that you plant the crowns 8 to 12 inches apart. Cover with about 2 inches of soil. Water the bed well after planting asparagus crowns. Be sure to provide sufficient water until the crowns show sprouts.

# Sweet Potato

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

## Beauregard

**90-100 Days.** Green heart-shaped leaves, blooms prolific rose-colored skin and orange flesh. Very good yields, resistance to white grub, soil pox. Susceptible to root-knot, nematodes; bacterial soft rot; slow sprouting. Stores well, high % No. 1 roots.

**\$15.75 per Bundle/25 per Bundle**

## O'Henry Sweet Potato

**90-100 Days (white).** The O'Henry Sweet Potato has a pale copper skin, almost like a potato, but don't be fooled. This tater's white flesh is sweet, creamy and ideal for soups and stews. Has a different look from the other darker-skinned sweet potatoes.

**\$15.75 per Bundle/25 per Bundle**

## Murasaki

Murasaki sweet potatoes are medium to large in size and are elongated, somewhat bulbous, and oblong in shape with each end tapering to a point or rounded edge. The thin skin ranges in color from dark purple to burgundy depending on the growing environment, and there are faint light pink-purple patches and brown spots scattered across the surface. The flesh is white to pale yellow and is a bit drier than other varieties, offering a flaky texture. When cooked, Murasaki sweet potatoes have a slightly sweet taste with a robust nutty flavor.

**\$16.00 per Bundle/25 per Bundle**

## Covington Sweet Potato

**100 Days.** A favorite for mashing or roasting, the Covington Sweet Potato has rose-colored skin and supersweet orange flesh. Smooth Orange, very good yield. Resistance to Russet Crack, Southern Root Knot, Nematode.

**\$16.00 per Bundle/25 per Bundle**

## Bonita Sweet Potato

**90-100 Days (white).** Light tan skin with a pink cast at harvest; fades to tan in storage. Flesh color is white with a tinge of yellow. Uniform shapes with good yields of #1's.

**\$15.75 per Bundle/25 per Bundle**

Orders are taken starting the **end of March to May 15** for delivery during the **first or second week of June**. Varieties cannot be guaranteed after **May 15**.

# Garlic and Shallot Varieties

## German White Garlic

This is a very sturdy porcelain type of hardneck garlic. They grow fairly large and have an excellent strong flavor that becomes sweet and mild when cooked. The outer bulb wrappers are often very white to milky and light tan. The scapes they produce in the spring coil in all kinds of ways all straighten up and become vertical.

**\$18.85 per lb.**

## German Red Garlic

This is a beautiful hardneck garlic from the rocambole family of garlics. There are 6 to 9 good-sized cloves situated around the central stem. The color of the skin on the cloves is usually a brilliant red and it has a hot and spicy flavor not to be missed. Many people consider them their favorite garlics because of their very rich taste. The scapes are thick and flavorful, often making 2 to 3 curls before turning up.

**\$18.85 per lb.**

## Polish White Softneck

A great garlic for braiding. This is a traditional favorite with New York's Italian market gardeners. The skin has a purple blush. It is said to be substantially more winter-hardy and more productive and disease resistant in the North and East. Averages 6 cloves per bulb.

**\$18.85 per lb.**

## Bavarian

Bavarian is a hardneck garlic in the Rocambole family. Bavarian is a strong garlic with a hot bite when raw that produces large dark purple skinned cloves. We really love the flavor of this one; the heat mellows a bit with cooking but still provides a great garlic presence and a little zing. It is a winter hardy variety suited well for cold climates. Stores up to 6 months.

**\$18.85 per lb.**

## Music Garlic

**Limited.** Good flavor, sweet and pungent, very hot when eaten raw. A very consistent performer here in the colder areas with large bulbs and typically 4 to 6 cloves with a pinkish blush to the skin. Mildly hot, easy to peel. Plants are vigorous and tall with large scapes.

**\$18.85 per lb.**

## Elephant Garlic

**Late Season.** These huge cloves produce softball-sized heads. The flavor is mild and suitable for many recipes. The truly impressive plants easily reach 4 to 5 feet and the flowers dry nicely for arrangements. Remove the flower head to promote larger clove size.

**\$18.85 per lb.**

## French Shallots

French production of Jersey 'half long' types with long, rather than rounded, bulbs that are often referred to as 'banana' shallots. The shiny copper-skinned bulbs with crisp, pink-tinged flesh make this a favorite with exhibitors. Is equally popular in the kitchen for its superb sweet taste. An excellent variety for Autumn planting with good storage potential.

**\$14.25 per lb.**

Garlic and Shallot Varieties:  
Orders are taken  
starting the **end of June to  
September 15**  
for delivery during the **second  
week of October.**  
Varieties cannot be  
guaranteed after  
**September 15.**

# A Full-Spectrum Approach to Crop Protection

Protect your crops from soilborne and foliar diseases all season with **Howler® EVO and Theia® fungicides** from AgBiome®. Both products provide multiple distinct modes of action to block fungal and bacterial pathogens and activate crops' natural defenses.

## Howler EVO Fungicide

*Target Diseases for Treatment*

- Anthracnose
- Botrytis
- Downy Mildew
- Early Blight

## Theia Fungicide

*Target Diseases for Treatment*

- Bacterial Diseases
- Phytophthora
- Powdery Mildew

## Key Features and Benefits

- High fungicidal and bactericidal activity provides return on investment, fewer SKUs, and peace of mind
- Multiple distinct modes of action for broad-spectrum control and low resistance risk
- Four-hour REI and zero-day PHI give harvest flexibility and worker protection
- U.S. residue tolerance exemption and no MRLs fit with food value chain and exports
- Robust formulations with excellent shelf life and no special storage requirements
- Compatible with chemicals, adjuvants, and antibiotics for tank mix flexibility
- OMRI listed for organic use in addition to conventional cropping systems

# The Advantage of TWO Powerful Products

ProBlad® Verde is the first organic fungicide providing locally systemic/translaminar activity and extended duration of control that provides disease prevention and is an excellent curative option.

Cinnerate has been used on grapes for the past 12 years in the PNW providing excellent disease curative control plus mite and insect management while being soft on the crop and beneficial predators.

### BENEFITS of using ProBlad Verde & Cinnerate in your fungicide program:

- No phytotoxicity concerns when the daytime temperature exceeds 85 degrees (when applied during the cooler time of the day)
- Excellent curative activity for powdery mildew and botrytis
- Safe to tank mix with other pesticides, fertilizers, and adjuvants
- No effect on wine quality at all application timings
- MRL Exempt & OMRI Listed
- Caution Signal Word

Preventative Program ProBlad® Verde 32-45 oz/acre	Curative Program Cinnerate 32 oz/100 ga

ADVANCED FERTILIZER  
Powered by  
TCS AMP-XC™

University  
Tested and  
Proven  
Technology!

Want to MAXIMIZE your Turf's  
Appearance and Health?

**AMP It Up.**

The AMP-XC™ Technology is an innovative soil amendment and fertilizer biocatalyst consisting of microbial metabolites that greatly increases the availability and uptake of plant nutrients, and optimizes plant performance to get more from your fertility management programs.

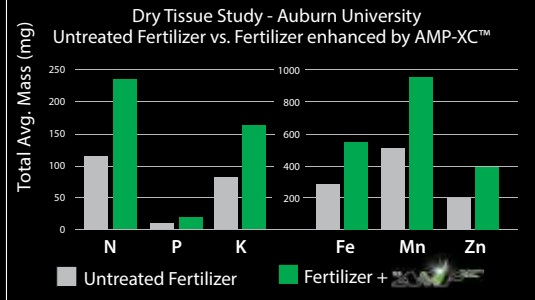

The AMP-XC™ product line is also flexible to fit all your unique application needs, available in granular or liquid fertilizers, soil amendments and concentrate.

**BENEFITS**

- Deeper and stronger roots
- Stress recovery and prevention (biotic and abiotic)
- Enhanced greening
- Improved seeding, sod growth and transplanting
- Increased nutrient uptake & moisture storage
- Eco-responsible and economical

**AMP-XC is PROVEN to increase nutrient uptake by over 30%, which greatly improves your turf's appearance, health and your ROI**

**TRU** PCU™

TRUSTED TIME-RELEASE UREA

**Reliable, Sustainable & Economical**

The Latest Innovation in Enhanced Efficiency Fertilizer Technology is Now Available in TCS GrowStar blends!

- PROVEN** - Controlled-release technology that provides a reliable and gradual release of nitrogen for extended nutrition and consistent, vibrant and healthy turf
- DURABLE** - Stays intact during transportation, blending and application to maintain consistent release of nutrition and more efficient release of nitrogen in the first 7 days!
- PRECISE, METERED NUTRITION** - Reduced likelihood of feast/famine cycles, growth flushes and burn. Strengthens turf against weed and disease pressures
- SUSTAINABLE** - Greatly reduces the potential for nutrient leaching, denitrification, runoff or volatilization
- ECONOMICAL** - Maximizes ROI on labor and operating cost. Is less costly per day to maintain healthy turf.
- FLEXIBLE** - Longevities available in 60, 90, 120, 180 day.
