POULTRY MANURE-BASED ORGANIC FERTILIZERS

WHY POULTRY MANURE FERTILIZER?

Rich with high levels of macronutrients, nutrients (N-P-K) and crucial micronutrients, chicken manure-based fertilizers are a great comprehensive alternative to chemical fertilizers that safely improve the health of your lawn and garden soil.

By helping to improve overall soil structure, moisture retention and air circulation; it can be viewed not only as a highly effective fertilizer and plant food, but also as a very beneficial soil amendment.

Available in bags, totes and trailer load options

A Message from LICA

Long Island Cauliflower Association would like to thank you for your continued support and want to wish you and your community continued health and peace.

We have all faced some new challenges during this unprecedented time, but we will continue to serve our community as best we can. As you know, Long Island Cauliflower has an important role to play by continuing operations to best serve our community.

As we start our 125th year, our goal, as always, is to provide the finest quality products and services to our customers.

We are committed more than ever to the success and future of Long Island Cauliflower Association. John E. Bokina, Jr., CEO, and the board of directors, some of whom are descendants of our founders, and our dedicated staff look forward to continuing to grow and keep Long Island Cauliflower the #1 farm and garden center on Long Island.

Long Island Cauliflower has expanded its growing business and now has a beautiful garden and gift center.

Remember, shop local, shop small business, shop the best at Long Island Cauliflower Association.

ICE MELTS Selection

Cutting Edge Pro Power Melt

(50 Lb) 49/Pallet

Safer for Pets, People and Property. Three-way blend of Calcium Chloride, Sodium Chloride & Potassium Chloride. Melts down to -12°F. Formulated with a corrosion inhibitor to reduce damage to concrete.

Blue Heat (50 Lb) 56/Pallet

W/Calcium Chloride pellets & Sodium Chloride melts to -25°F, does not chemically attack concrete, Safer than low grade ice melt. Has blue tint to see where it has been applied.

Calcium Chloride Pellets

(50 Lb) 48/Pallet

Works fast by generating heat, continues to work at lower temps, below -25°F.

Rock Salt

(25 Lb & 50 Lb) 100/Pallet

(50 Lb) 63/Pallet

SNOW SHOVELS

POLY D GRIP 25-95-DASH02

RED HANDLE HO-AR-SNSHVL

Meltco Premium Shakers (12 Lb) 200/Pallet

Blend of Sodium Chloride, magnesium chloride & MCl₃. Designed to quickly & effectively de-ice and anti-ice surfaces. Treated to lower freezing point of surface. It's Non-caking, anti-corrosive, and non-tracking. Easy to use. Does not contain Nitrogen or Phosphorus. Tinted Blue to see where applied.

Meltco Premium Premium Eco Friendly

(25 Lb) 100/Pallet

Blend of Sodium Chloride, magnesium chloride & MCl₃. Designed to quickly & effectively de-ice and anti-ice surfaces. Treated to lower freezing point of surface. It's Non-caking, anti-corrosive, and non-tracking. Easy to use. Does not contain Nitrogen or Phosphorus. Tinted Blue to see where applied.

Meltco Treated De-Icer (50 Lb) 49/Pallet

Blend of Sodium Chloride, magnesium chloride & MCl₃. Designed to quickly & effectively de-ice and anti-ice surfaces. Treated to lower freezing point of surface. It's Non-caking, anti-corrosive, and non-tracking. Easy to use. Does not contain Nitrogen or Phosphorus. Tinted Blue to see where applied.

Wicked Snow & Ice Melter (50 Lb) 49/Pallet

Mid to High grade blend. Contains CSM and added Calcium to kickstart the melting process, beneficial for dry cold weather. Popular in commercial market & retail. Melts down to -15°F. Safer on concrete and other surfaces when used as directed.

All Your Landscape Needs from One Source!

LebanonTurf is the only company that offers both microbiological components along with advanced controlled release fertilizer products delivered as part of an integrated "Best of All Worlds" system's approach to turf and plant care needs. We continue to explore and develop the industry's most advanced technologies to deliver the ultimate in efficient, cost effective lawn operations.

LebanonTurf offers ProScape and Lebanon Pro fertilizer and combination products in an easily and accurately applied granular product. In the ProScape brand you will find exclusive technologies such as Meth-Ex[®], a high efficient methylene urea and MESA[®], a specially formulated nitrogen that delivers brilliant color response. Lebanon Pro is a cost-effective blended fertilizer providing a practical approach in a wide range of lawn, landscape and general turf situations. Lebanon Pro contains LSN to ensure that nitrogen gets delivered to the turf and does not escape into the atmosphere through volatilization.

The ROOTS[®] brand of biologically enhanced nutrients merge nature and technology to offer leading edge solutions for turf and plant care. ROOTS provides an all-in-in nutrient delivery system that feeds the plant while enhancing the biological life of the soil and plant ecosystem and provides consistent color response, improved turf density and enhanced root mass.

LebanonTurf's selections of award-winning seed varieties have been chosen after careful research and development to deliver quality and performance.

INNOVATIVE SOLUTIONS FOR GREEN INDUSTRY PROFESSIONALS.

THREE GROUNDBREAKING HERBICIDES THAT PROVIDE DEPENDABLE POWER AND CONSISTENT VALUE.

QUINTESSENTIAL®

Unique, patent-pending formulation powered by H-Value™ Technology, a proprietary performance additive that increases efficacy. Get unrivaled performance in conditions that limit absorption - like untimely rains or irrigation - and improved crabgrass control, particularly in the challenging 3-5 tiller stage.

SUBLIME™

The one-of-a-kind, three-way power of Sublime gives you innovative, true broad-spectrum control. Its balanced blend of triclopyr, dicamba, and mesotrione delivers unsurpassed control of broadleaf weeds, from perennials to woody species as well as certain grassy weeds.

TRIAD T SELECT™

A popular tank mix now available in a convenient premix formulation. This proprietary amine formulation of Triad Select™ plus triclopyr provides powerful broad-spectrum, postemergence control of some of the toughest annual and perennial broadleaf weeds in a range of turf types.

Lawn and Commercial Mixes

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

LICA Elite Turf Mixture

Developed to perform exceptionally under a high-maintenance schedule of grooming, irrigation, and fertilization. All Kentucky bluegrass varieties are certified blue-tagged. This mix provides excellent disease resistance and dark green, "sod-quality" turf.

Seeding Rate: 4-6 lbs./1000 sq. ft.

30% Sombrero Kentucky Bluegrass
 30% Skye Kentucky Bluegrass
 20% Leeward Chewing Fescue
 10% Fielder Kentucky Bluegrass
 5% Mystique Perennial Ryegrass
 5% Aspire Perennial Ryegrass

5 lbs.	25 lbs.	50 lbs.
\$32.85	\$123.85	\$212.80

LICA Sunny Mixture

A versatile and durable mix designed for medium- to low-maintenance lawns. Provides strong drought tolerance and adapts well to varied soil conditions while maintaining excellent disease resistance.

Seeding Rate: 6-8 lbs./1000 sq. ft.

30% Skye Kentucky Bluegrass
 30% Leeward Chewing Fescue
 20% Mystique Perennial Ryegrass
 20% Aspire Perennial Ryegrass

5 lbs.	25 lbs.	50 lbs.
\$28.15	\$115.45	\$190.25

LICA Sun & Shade Mixture

An elite combination of Kentucky bluegrass, fine-leaf perennial ryegrass, and red fescue. Offers dark color, disease resistance, traffic tolerance, and excellent shade performance—ideal for most Long Island lawns.

Seeding Rate: 4-6 lbs./1000 sq. ft.

25% Mazama Kentucky Bluegrass
 25% Shadow IV Chewing Fescue
 20% Chorus Creeping Red Fescue
 10% Aspire Perennial Ryegrass
 10% Mystique Perennial Ryegrass
 10% Sword Hard Fescue

5 lbs.	25 lbs.	50 lbs.
\$34.50	\$125.90	\$210.75

LICA Shady Mixture

A blend of shade-tolerant Kentucky bluegrass and improved fine fescues, combined with fine-leaf perennial ryegrass for quick establishment. Performs well in shaded, sandy, acidic, or low-maintenance areas.

Seeding Rate: 5-7 lbs./1000 sq. ft.

30% Chorus Creeping Red Fescue
 25% Leeward Chewing Fescue
 20% Sword Hard Fescue
 15% Mazama Kentucky Bluegrass
 10% Aspire Perennial Ryegrass

5 lbs.	25 lbs.	50 lbs.
\$32.40	\$122.10	\$205.75

(Lawn and Commercial Mixtures continued on next page)

Note: Mix Formulations are subject to change without notice depending upon availability of existing and new products. While the formula may change, the guiding philosophy and function of the mix will not.

Lawn and Commercial Mixes

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

LICA Tri-Rye Mixture

A blend of fine-leaf perennial ryegrass varieties selected for consistent color, disease tolerance, and winter survivability. Excellent for quick cover, touch-ups, and overseeding.

Seeding Rate: 6-8 lbs./1000 sq. ft.

35% Fiesta Cinco Perennial Ryegrass
35% Hancock Perennial Ryegrass
30% Aspire Perennial Ryegrass

<u>5 lbs.</u>	<u>25 lbs.</u>	<u>50 lbs.</u>
\$22.50	\$83.30	\$137.80

LICA Tall-Bluegrass 90/10 Mixture

A blend of three elite turf-type tall fescues selected for Long Island conditions. Features excellent color, texture, mowability, drought tolerance, wear tolerance, and some shade tolerance. Kentucky bluegrass is added for improved recovery and appearance.

Seeding Rate: 8 lbs./1000 sq. ft.

30% Rhizing Moon Tall Fescue
30% Mammoth Tall Fescue
30% Tank Tall Fescue
10% Skye Kentucky Bluegrass

<u>5 lbs.</u>	<u>25 lbs.</u>	<u>50 lbs.</u>
\$24.90	\$90.20	\$147.18

LICA Farmingdale Mixture

A standard, economical mix of bluegrass, fine fescue, and improved perennial ryegrass—ideal for Long Island lawns. Contains no annual ryegrass.

Seeding Rate: 6-8 lbs./1000 sq. ft.

30% Boreal Creeping Red Fescue
20% Aspire Perennial Ryegrass
20% Fiesta Cinco Perennial Ryegrass
30% Skye Kentucky Bluegrass

<u>5 lbs.</u>	<u>25 lbs.</u>	<u>50 lbs.</u>
\$26.15	\$100.10	\$167.25

LICA Super Tuff Mixture

A mix of dwarf, low-growing varieties requiring less mowing, watering, and maintenance. Endophytes provide natural insect resistance. Suitable for sun or shade.

Seeding Rate: 6-8 lbs./1000 sq. ft.

25% Boreal Creeping Red Fescue
25% Shadow IV Chewing Fescue
50% Fiesta Cinco Perennial Ryegrass

<u>5 lbs.</u>	<u>25 lbs.</u>	<u>50 lbs.</u>
\$28.60	\$107.45	\$177.50

LICA Tall-Ryegrass 90/10 Mixture

A tri-tall fescue blend chosen for Long Island conditions, offering outstanding dark green color, fine texture, drought tolerance, and wear resistance. Perennial ryegrass is included for quick establishment and soil stabilization.

Seeding Rate: 8 lbs./1000 sq. ft.

30% Crossfire 4 Tall Fescue
30% Rhizing Moon Tall Fescue
30% Tank Tall Fescue
5% Hancock II Perennial Ryegrass
5% Fiesta Cinco Perennial Ryegrass

CALL FOR PRICING

LICA NVO 50/50 Mixture

A low-growing, low-maintenance blend designed to suppress weeds and control erosion in nurseries, vineyards, and orchards.

Seeding Rate: 50-80 lbs./Acre

50% Fiesta Cinco Perennial Ryegrass
50% Boreal Creeping Red Fescue

<u>25 lbs.</u>	<u>50 lbs.</u>

Forage Mixtures

KING'S HORSE SUPREME

A long-lasting, dense pasture mix featuring forage-type Kentucky bluegrass for durability, meadow brome and grazing-tolerant Orchardgrass for drought productivity, and diploid ryegrass for quick establishment and strong spring/fall growth.

Seeding Rate: 25-30 lbs/Acre
33 LBS. \$225.65 per bag

37% Grazing Tolerant Orchardgrass
20% Montana Meadow Brome
20% Diploid Perennial Ryegrass
15% Balin Kentucky Bluegrass
6% European/Premium Timothy
2% Dutch White Clover

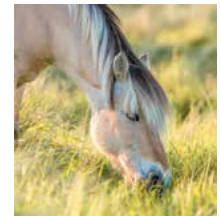

PADDOCK EX Mix

Paddock EX was created with grass species which are very tolerant to the traffic pressure of equine, cattle and other livestock, and will persist under heavy utilization. Optimal performance depends on adequate hay and appropriate paddock rest periods. All forages are endophyte-free.

Seeding Rate: 50-75 lbs/Acre
33 LBS. \$158.50 per bag

65% Endophyte Free Tall Fescue
20% Kentucky Bluegrass
15% Perennial Ryegrass

Great Gains Northern Mixture

A proven high-sugar grass blend for progressive U.S. cattle operations. Naturally elevated sugar levels improve drought and cold tolerance, promote strong annual regeneration, and help suppress weeds—reducing herbicide use even under heavy grazing.

Seeding Rate: 10-15 lbs./Acre

25% AberEve HSG Intermediate Ryegrass
25% AberMagic HSG Perennial Ryegrass
25% AberGreen HSG Perennial Ryegrass
10% Quickdraw HSG Orchardgrass
6% Fixation Balansa Clover -5% Six Point Chicory
4% AberLasting White Clover

<u>25 lbs.</u>	<u>50 lbs.</u>
\$162.50	\$275.00

Pasture Perfect Show Horse

It is a mix of highly palatable varieties that make super quality forage. Excellent season long forage. Can also be used for hay.

Seeding Rate: 35-50 lbs/Acre

30% Tekapo Orchardgrass
25% Duo Festulolium
20% Power Tetraploid Perennial Ryegrass
15% Tuukka Timothy
10% Kentucky Bluegrass

Forage Mixtures *(continued)*

Pasture Sweet'ner Northern Mixture

High-sugar grass blend for overseeding existing pastures. Fast establishment helps crowd out weeds, reducing herbicide needs even under heavy grazing. Exceptional regrowth supports high yields and may allow hay harvests after a full grazing season.

Seeding Rate: 15-18 lbs./Acre

34% HSG Tetraploid Perennial Ryegrass
33% HSG Perennial Ryegrass
33% HSG Tetraploid Intermediate Ryegrass

<u>25 lbs.</u>	<u>50 lbs.</u>
\$135.25	\$245.88

King's Northern Grazing Mix

A palatable, winter-hardy pasture blend for high-producing livestock (dairy, grass-finished beef, goats). Best suited for fertile soils. Includes chicory for improved mineral nutrition and animal health.

Seeding Rate: 25-35 lbs./Acre

35% Perennial Ryegrass
25% Grazing Tolerant Orchardgrass
25% Meadow Fescue
7% Medium Red Clover
6% White Clover
2% Chicory

33 lbs. \$299.50 per bag

Note: Mix Formulations are subject to change without notice depending upon availability of existing and new products. While the formula may change, the guiding philosophy and function of the mix will not.

Forage Mixtures (Continued)

Rackmaster Trophy Radishes

Establishes and grows fast producing up to 5,000 lbs. per acre dry matter of lush green top growth and another 2,000 lbs. per acre of edible root mass - both of which deer find highly attractive. To attract and provide nutrition for deer. To build soil organic matter and improve soil tilth.

Seeding Rate: 10 lbs./acre (1/4 lb. per 1000 sq.ft.) alone or 3-5 lbs./acre (1-2 oz. per 1000 sq.ft.) in mixtures.

5 lbs.
\$45.00

Rackmaster Chicory

Is a blend of high yielding perennial forage chicory varieties that supplies a highly palatable, high protein and energy rich food source for deer and other wildlife throughout the spring and summer months and into fall.

Seeding Rate: 10 lbs./acre alone (4 oz./1000 sq.ft.) or 4 lbs. per acre in mixes (1.5 oz./1000 sq.ft.) or 2-1/2 lbs. per 1000 sq.ft.)

5 lbs.
\$58.75

Rackmaster Fall Deluxe Deer Mixture

Is a combination of winter annual grasses, legumes and brassica species that attract deer and provide the carbohydrates needed to help the deer herd build up stored fat to maintain good body condition through the rut and winter stress period. Also provides excellent habitat for quail and turkey. It features RapidResults seed germination enhancement technology which promotes quicker emergence and stronger, deeper root growth.

Seeding Rate: 100 lbs./acre or
2-1/2 lbs. per 1000 sq.ft.

50 lbs.
\$52.50

Rackmaster Deer Greens

Is a 100% mixture of brassicas including rape, purple top turnip, kale and Trophy Radish that provides an abundant high protein and energy rich diet for deer. It germinates quickly to provide an immediate high protein food source to help fill seasonal nutritional gaps.

5 lbs.
\$41.75

Rackmaster Deer Grazer

Is a mixture including rape, purple top turnip, Trophy Radish and crimson clover that provides an abundant high protein and energy rich diet for deer. It germinates quickly to provide an immediate high protein food source to help fill seasonal nutritional gaps.

Seeding Rate: 5 lbs per 1/2 acre or
10 lbs. per acre or 1/4 lb.
per 1000 sq.ft.

5 lbs.
\$41.85

Rackmaster Supreme Fall

Is a custom blend of highly succulent and nutritious winter annual grains, brassica, winter peas and annual clovers designed to attract and provide the nutrition needed by the entire deer herd for maximum growth and optimum health.

Seeding Rate: 100 lbs./acre or
2-1/2 lbs. per 1000 sq.ft.

50 lbs.
\$53.75

KWS TINKA MALTING BARLEY European 2-row malting barley from KWS. 2nd highest yielding barley in Cornell trials. Above average tolerance to FHB. Medium height, medium maturity.....TBD

AAC SYNERGY MALTING BARLEY Spring widely adapted 2-row variety, produces heavy, plump kernels and short, strong straw with good resistance to lodging. Desirable malting quality profile with higher malt extract.....TBD

Cut and Wildflowers

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Bachelor Button (Cornflower)

FS-BB-BA: Drought-tolerant annual, 2-3 ft tall. Thrives in full sun and most soils. Excellent for cutting or garden color.

1 oz	1/4 lb	1-4 lbs
\$3.35	\$6.50	\$19.15/lb

Royal Mix - Sweet Pea

Old-fashioned favorite with exceptional fragrance. Large 2" blooms in red, purple, mauve, pink, blue, and white. Long blooming period.

1/4 oz	1 oz	1/4 lbs
\$3.35	\$9.10	\$37.40

Cosmos Mix

FS-CO-MX: Hardy annual, 2-3 ft tall. Deep crimson and soft pink flowers. Needs full sun, minimal moisture once established.

1 oz	1/4 lb	1-4 lbs
\$3.35	\$6.45	\$25.75/lb

Corn Poppy (Red)

FS-PA-RR: Annual, 2-2.5 ft tall. Large 2-4" fire-red blooms. Prefers well-drained soil; full sun to partial shade. Best sown early spring in northern regions.

1 oz	1/4 lb	1-4 lbs
\$3.35	\$9.10	\$35.40/lb

Cosmos White

FS-CO-WH: Hardy annual, 2-3 ft tall. Pure white blooms. Requires full sun and little moisture once established.

1 oz	1/4 lb	1-4 lbs
\$3.35	\$7.30	\$25.75/lb

Norlin Blue Flax

FS-WF-FL: 12-14" plants with numerous light-blue, cup-shaped blooms. Prefers dry, sunny areas with sandy soil. Flowers last one day.

1 oz	1/4 lb	1-4 lbs
\$3.35	\$11.80	\$47.60/lb

Marigold Crackerjack

FS-MA-CRAC: Annual, 2.5-3 ft tall. Large 4" blooms in yellow, gold, and orange. Great for borders and cutting

1 oz	1/4 lb	1-4 lbs
\$3.35	\$7.00	\$17.50/lb

Black-Eyed Susan

Native, drought-tolerant perennial/annual. 12-36" tall with bright golden flowers. Attracts pollinators all summer long.

1 oz	1/4 lb	1-4 lbs
\$3.35	\$9.10	\$37.20/lb

Nasturtium 'Jewel'

FS-NA-NAST/JEWLB: Trailing or bushy plants 8-12" tall. Edible flowers in multiple colors; great for gardens and salads.

1 oz	1/4 lb	1 lb
\$3.35	\$8.15	\$17.65/lb

Balsam 'Bush Mix' Impatiens

FS-PA-ICE: Compact 16-24" plants with double blooms in rose, salmon, white, scarlet, and violet. Flowers form at plant tops.

1 oz	1/4 lb	1 lb
\$3.35	\$8.85	\$30.95

Ensure Transplant Success with Bio-tone® Starter Plus

FOUR GENERATIONS OF PROVEN RESULTS

Professionals have been feeding and maintaining gardens with Holly-tone® and Plant-tone® for decades. Now they know the best way to boost root growth and ensure transplant success is by starting with Bio-tone® Starter Plus. An all natural fertilizer fortified with beneficial microbes, humates, and mycorrhizae, Bio-tone Starter Plus helps roots establish faster, grow deeper, and resist stress. Eliminate expensive callbacks due to plant loss by using Bio-tone Starter Plus for everything you plant.

Espoma. A family tradition since 1929.

Strengthen

Crop Vitality

MEGAFOL®

Foliar nutrition to strengthen *crop vitality*.

Strengthening crop vitality requires proper in-season nutrition. Megafol® can provide that nutrition – and more. Regardless of the type of stress—excess moisture, heat, drought, cold or herbicide injury— Megafol strengthens a crop’s response to stress for improved survivability and recovery. It provides a foliar supplement of 3-0-8 and a precision blend of plant extracts. Give your crops the nutrition and crop vitality they need to reach higher yields this season with Megafol.

JMS Stylet-Oil®

The Clear Choice for Powdery Mildew and Mite Control

JMS Stylet-Oil – an effective alternative to early-season sulfur treatment.

Multi-Functional – serves as an eradicant, preventative and anti-sporulant when treating powdery mildew.

Mite Control – early-season use provides consistent mite control and early-season advantages over sulfur.

Product Purity – organically enhanced clean white oil; guaranteed purity for maximum effectiveness.

The Advantage of TWO Powerful Products

ProBlad® Verde is the first organic fungicide providing locally systemic/translaminar activity and extended duration of control that provides disease prevention and is an excellent curative option.

Cinnerate has been used on grapes for the past 12 years in the PNW providing excellent disease curative control plus mite and insect management while being soft on the crop and beneficial predators.

BENEFITS of using ProBlad Verde & Cinnerate in your fungicide program:

- No phytotoxicity concerns when the daytime temperature exceeds 85 degrees (when applied during the cooler time of the day)
- Excellent curative activity for powdery mildew, botrytis, downy mildew
- Safe to tank mix with other pesticides, fertilizers, and adjuvants
- No effect on wine quality at all application timings
- MRL Exempt & OMRI Listed
- Caution Signal Word

Preventative Program ProBlad® Verde 32-45 oz/acre	Curative Program Cinnerate 32 oz/100 ga
<p>Additional benefits with ProBlad Verde:</p> <ul style="list-style-type: none"> • Able to provide curative control of existing infection and preventative control on a 14-day interval, whereas <i>Bacillus</i> products require a 7-day interval to achieve similar results • <u>Locally systemic and translaminar</u>; Active Ingredient will move through the leaf to the opposite side to provide additional control and prevention • Better fruit protection: ProBlad absorbs into treated fruit and provides superior disease prevention & duration of control • Can be substituted into a 14-day conventional fungicide rotation without sacrificing efficacy <p>FLEXIBLE APPLICATION - 4-HOUR REI - 1-DAY PHI LOCALLY SYSTEMIC - CURATIVE & PREVENTATION - MRL EXEMPT UP TO 7-14 DAYS PROTECTION</p>  	<p>Additional benefits with Cinnerate:</p> <ul style="list-style-type: none"> • Cleans up existing infection more effectively than other eradicates • Curative control superior to Kaligreen and Oxidate • Tank mix flexibility, can tank mix with conventional fungicides • Added benefit of mite, thrip, leaf hopper and mealy bug control <p>IPM COMPATIBLE - 0-HOUR REI 0-DAY PHI - MRL EXEMPT</p>

Field Corn Types

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

SCS 1043

Days: 104

- Conventional, non-Roundup Ready
- Widely adapted yield leader for maturity
- Proven, consistent performance in SCI testing
- Outstanding agronomics and disease tolerance

SCS 851Q

Days: 85

- Top End Yield Potential - Roundup Ready
- Drought tolerant, excellent NCLB Tolerance
- Great for various soil types, best performance on average or better soil
- Girthy ear with nice flex

SCS 931Q

Days: 93

- Roundup Ready
- Elite yields in Eastern Corn Belt
- Exceptional Grain Quality
- Impressive girthy ear with flex
- Strong foliar resistance to NCLB

SCS 1018AMXT

Days: 101

- Roundup Ready
- Dual purpose hybrid–Silage and Grain
- Outstanding drought tolerance
- Excellent grain quality, food grade potential
- Exceptional grain health and stay green

SCS 1042Q

Days: 104

- Yield leader in Maturity, Roundup Ready
- Good Northern Leaf Blight Tolerance
- Hybrid meant for the Eastern Corn Belt
- AQUA Amax
- Excellent Silage Yield & Digestibility

SCS 10HR43

Days: 104

- Roundup Ready
- Widely adapted yield leader for maturity
- Proven, consistent performance in SCI testing
- Outstanding agronomics and disease tolerance

SCS 1071Q

Days: 107

- Roundup Ready, Excellent Stress Emergence
- Hi yielding Hybrid w/ Eastern Genetics
- Above average weight, below average height
- Great package against Eastern diseases

SCS 1087AM

Days: 108

- Roundup Ready, girthy ear with nice flex
- Multi year dominant yield performance
- Outstanding hybrid targeted for Eastern Corn Belt soils
- Elite genetics with strong drought tolerance

SCS 1122Q

Days: 112

- Roundup Ready
- Hybrid, combines top end yield, good stability
- Good drought tolerance, suited for various soil types
- Grey leaf tolerance, good Northern leaf blight tolerance

SCS 1158Q

Days: 115

- Eastern Corn Belt genetics & plant health
- Drought tolerant
- Tall structure, outstanding stalks & roots
- Excellent grain quality, food grade potential
- 115 day hybrid w/excellent dry down

Organic Field Corn

SCS 1043N (Organic)

Days: 104

- Proven, consistent performance in SCI Testing
- Outstanding agronomics & Disease tolerance
- Adapted yield leader for maturity

SCS 1087N (Organic)

Days: 108

- Outstanding hybrid for eastern Corn Belt soils
- Elite genetics w/good plant health
- Drought tolerance, Girthy ear with nice flex

Roundup Ready Field Corn

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

SCS 864Q

Days: 86

- Strong yield potential
- Medium statured, good stress emergence
- Drought tolerant w/good roots
- Strong disease tolerance to northern leaf blight
- Competitive late season stalk strength, recommend timely harvest

SCS 1042Q

Days: 104

- Yield leader in maturity
- Good Northern Leaf Blight Tolerance
- Excellent silage yield & digestibility
- Hybrid meant for the eastern corn belt
- AQUAmax

SCS 1055PCE

Days: 105

- Widely adapted hybrid
- Good Grey Leaf Spot tolerance
- Good roots & stalks
- Good Stay green & attractive fall appearance
- Medium-tall plant stature w/ lower ear placement

SCS 1071Q

Days: 107

- High yield potential hybrid
- Above average test weight
- Solid agronomic package against Eastern Diseases
- Below Average Plant Height
- Excellent Stress Emergence

SCS 1086PCE

Days: 108

- Hybrid with medium stature
- Excellent late season intactness
- Strong Northern Leaf Blight tolerance
- Average gray leaf spot tolerance
- Food grade grain potential

SCS 1094PCE

Days: 109

- Tremendous top end yield w/ good stability
- Moderate plant stature & ear height
- Good roots & silks early for maturity
- Good Northern Blight & moderate Grey Leaf Spot tolerance
- Dual purpose Hybrid with good silage yield & digestibility

SCS 1122Q

Days: 111

- Impressive eastern performance
- Works with all soil types
- Very good plant health & late-season intactness
- Very good drought tolerance
- Very good NCLB & Good GLS tolerance

CONVENTIONAL

SCS 1042

Days: 104

- Yield leader in maturity
- Good Northern Leaf Blight Tolerance
- Excellent silage yield & digestibility
- Hybrid meant for the eastern corn belt
- AQUAmax

AM - Optimum® AcreMax® Insect Protection system with YGCB, HX1, LL, RR2. Contains a single bag integrated refuge solution for above-ground insects.

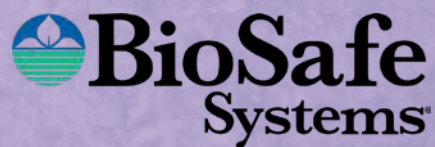

AMXT - Optimum®, AcreMax®, Xtreme. Single Bag integrated refuge solution for above and below ground insects. Contains Agrisure® RW & Bt Trait and Herculex® XTRA genes.

PCE - Powercore® Contains Hx1, VTP, ENL, LL, RR2. Contains integrated refuge solution for above ground insects.

Q - Qrome® Single bag integrated refuge solution for above and below ground insects. Contains Agrisure® RW & Bt Trait and Herculex® XTRA genes.

Bi-Color Corn Seeds

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Takeoff

69 days This high quality, augmented yellow offers excellent field holding ability, and excellent yield potential. Large 7 ¾ 8.5" ears are produced on clean, sturdy 6' plants. The ears fill well to the tip with 16- 18rows of bright deep yellow kernels. The ears are tightly covered with an attractive, deep green husk and excellent flags. Isolation required.

<u>1/4 lb</u>	<u>1 lb</u>	<u>1 M</u>
\$18.80	\$55.75	\$15.85

Cuppa Joe

74 days to maturity. Is a synergistic bicolor with great quality and extremely high yield potential. It has good cold soil tolerance and produces well filled, large 8 to 8½" ears with 14 to 16 rows of yellow and white kernels. Intermediate resistance NCLB, common rust and Stewart's Bacterial Wilt.

<u>1/4 lb</u>	<u>1 lb</u>	<u>1 M</u>
\$10.89	\$43.58	\$19.42

Providence

82 days. TripleSweet bicolor sweet corn. Has a superb eating quality that is suited for roadside and farm markets sales. 6½' plants hold ear at 24" and have intermediate resistance to common rust. Refined 8" ears have 14 to 18 rows.

<u>1/4 lb</u>	<u>1 lb</u>	<u>1 M</u>
\$15.25	\$45.54	\$15.57

Kickoff XR Cor

69 days. Flavorful first-early super sweet (sh2). Excellent seeding vigor. New benchmark for flavor in this maturity slot. Exceptional quality. Large, attractive ears 7¾ - 8". Excellent husk package and tip fill. High resistance to common rust.

<u>1/4 lb</u>	<u>1 lb</u>	<u>1 M</u>
\$13.45	\$45.77	\$18.50

Delectable

84 days. This rigged plant is tolerant to Stewart's Wilt and common rust. It produces large, 8½ to 9" ears very well filled with 18 to 20 rows of delicate, deep yellow and white kernels. Plant it later for fall corn roasts. The large, fancy ears of Delectable are hard to beat.

<u>1/4 lb</u>	<u>1 lb</u>
\$13.60	\$28.16

Special Bulk Prices are Available

White/Yellow/Ornamental Corn Seeds

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Silver King

82 days. Plant produces good yields of delicious, sweet white corn. Ears are 8" long and have 16 rows of white kernels. Disease Resistant: Stewart's Wilt, Northern Corn Leaf Blight, Common Rust. Plants. Requires warm (65°F/18°C) soil to germinate properly.

<u>1/4 lb</u>	<u>1 lb</u>
\$12.40	\$25.35

Fiesta CORN ORNAMENTAL

100 days. Bright and showy. A must for your autumn decorations. Multicolored ornamental corn. Husk color ranges from light green to deep purple. Note: isolate ornamental corn from other corn to prevent cross pollination.

<u>1/4 lb</u>	<u>1 lb</u>
\$9.83	\$19.66

Bodacious

75 days. Very high quality flavor and sweetness that holds for days after picking. Its wide adaptability in northern latitudes, early maturity and consistent performance has made it the most popular variety in its class.

<u>1/4 lb</u>	<u>1 lb</u>
\$13.55	\$25.10

Top Pop

100 days. The vigorous, upright plants of this hybrid produce big crops of good sized yellow ears. Its deep kernels pop to large sunbursts that are tender and delicious.

<u>1/4 lb</u>	<u>1 lb</u>	<u>1 M</u>
\$6.74	\$25.96	\$65.50

Plants – Not Just Seeds

Minimum order for plants is by box/crate which can contain 500 to 750 plants or more.

Seeds are purchased 15% over the required amount.

Example: A 1,000-plant order would need 1,150 seeds purchased.

1st Shipment:

Order by March 15th Arrival May 20th

2nd Shipment:

Order by April 15th Arrival June 20th

Some of the varieties that are ordered are: Mountain Fresh, Pony Express, and Celebrity Tomatoes King Arthur, Declarations Peppers Epic Eggplants Athena and Aphrodite Melons

If we can get the seed, we can get you the plants.

Prices are determined at the time of order.

Onions

Price is per bundle, 50-60 seedling in bundle

LONG STORAGE (6-10 Months)

Red Wing

Minimum of four dozen plants per bunch. Deep red, globe-shaped, slightly pungent hybrid.

Size: 3-4" **Storage:** 8-10 months **Days to Harvest:** 120

Top long-day red variety with rich color and strong disease resistance.

MEDIUM STORAGE (3-5 Months)

Highlander

Minimum of four dozen plants per bunch. Yellow, slightly flat globe-shaped hybrid.

Size: 3-4"

Storage: 4-5 months

Days to Harvest: 85-90

Firm bulbs with thin necks for easy curing; strong disease resistance.

Texas Legend

Minimum of four dozen plants per bunch. Yellow, globe-shaped, sweet open-pollinated.

Size: 6"

Storage: 3-4 months

Days to Harvest: 100-105

Mild, sweet flavor; matures earlier than the 1015Y Texas Super Sweet.

1015Y Texas Super Sweet

Minimum of four dozen plants per bunch. Yellow, globe-shaped, sweet open-pollinated.

Size: Up to 6"

Storage: 2-3 months

Days to Harvest: 115

Famous Texas variety with mild, sweet flavor and high yields.

Yellow Spanish

Minimum of four dozen plants per bunch. Yellow, globe-shaped, mild open-pollinated.

Size: 6"

Storage: 4 months

Days to Harvest: 100

Produces large, sweet bulbs that grow easily and uniformly.

Candy

Minimum of four dozen plants per bunch. Yellow, globe-shaped, sweet hybrid.

Size: 6"

Storage: 3 months

Days to Harvest: 90-100

Very popular, easy to grow, and highly disease resistant.

Texas Early White

Minimum of four dozen plants per bunch. White, globe-shaped, sweet open-pollinated.

Size: 5½-6"

Storage: 2-3 months

Days to Harvest: 105-110

Easy to grow, mild, and resistant to greening and bolting.

Red Candy Apple

Minimum of four dozen plants per bunch. Deep red, flat globe-shaped, sweet hybrid.

Size: 3" **Storage:** 2-3 months **Days to Harvest:** 85-95

Reliable red onion with great flavor and color for intermediate day areas.

SHORT STORAGE (1-2 Months)

Super Star

Minimum of four dozen plants per bunch. White, globe-shaped, sweet hybrid.

Size: 4"

Storage: 2 months

Days to Harvest: 95

Adaptable and dependable—also known as *Sierra Blanca*.

Yellow Granex

Minimum of four dozen plants per bunch. Yellow, semi-flat, sweet hybrid.

Size: 5"

Storage: 1-2 months

Days to Harvest: 90-100

Vidalia-type onion—very sweet and mild, best eaten fresh.

Walla Walla

Minimum of four dozen plants per bunch. Yellow, semi-flat, sweet open-pollinated.

Size: Up to 6"

Storage: ~1 month

Days to Harvest: 90

Cold-hardy and mild with low sulfur—one of the sweetest onions grown.

Onions

Price is per bundle, 50-60 seedling in bundle

FRESH USE / MILD STORAGE

Ringmaster

Minimum of four dozen plants per bunch. White, globe-shaped, mild open-pollinated.

Size: 5" **Days to Harvest:** 105

Large, sweet, mild onions ideal for cooking or bunching as green onions.

*Special pricing due to seed production

Alisa Craig *

Minimum of four dozen plants per bunch. Yellow, globe-shaped, sweet open-pollinated.

Size: Up to 8" (6 lbs)

Storage: ~1 month

Days to Harvest: 95

Giant heirloom onion with mild flavor—use soon after harvest.

Red Zeppelin *

Minimum of four dozen plants per bunch. Dark red, globe-shaped, slightly pungent hybrid.

Size: 3-4"

Storage: 6-8 months

Days to Harvest: 100-110

Brilliantly colored throughout with excellent storage quality.

Patterson *

Minimum of four dozen plants per bunch. Yellow, globe-shaped, slightly pungent hybrid.

Size: 3-4"

Storage: 8-10 months

Days to Harvest: 110

Excellent size, firmness, and yield—our best long-term storage onion.

Lancelot Leeks

Price is per bundle, 50-60 seedling in bundle

Each bunch of Lancelot Leek plants includes a minimum of four dozen open-pollinated plants. They have long white shafts with blue-green upright leaves and can grow 12 to 14 inches tall. These leeks reach harvest in about 75 days. Lancelot Leeks are excellent for soups, salads, and roasting. Keep blanching by mounding soil around the stems to encourage longer, whiter shafts and rich flavor.

UPL is proud to grow with the Long Island Cauliflower Association

and support the needs of its members. UPL offers a full portfolio of agricultural products designed to protect growers crops from some of the most challenging pests. To learn more, visit www.upl-ltd.com/us or contact your local UPL distributor or UPL Sales Representative.

Blueberries

Pricing is per variety and per shipment; varieties cannot be combined for quantity pricing. Discounts are based on cases and amounts purchased. Orders placed after April 15 will be accepted, but quantities and varieties cannot be guaranteed. Dates are subject to change based on weather conditions.

Bluecrop Blueberry

Highlights: Leading commercial and all-around variety

- **Adaptability:** Grows well in diverse conditions; disease resistant
- **Fruit:** Large clusters of sweet, firm berries with good shelf life
- **Use:** Fresh eating, freezing, U-pick, and market sales
- **Plant Size:** 4-6 ft tall
- **Harvest:** Long, productive season

Duke Blueberry

Highlights: Reliable, early-season variety

- **Yields:** High production of firm, uniform berries
- **Flavor:** Mild to slightly tart
- **Advantages:** Late blooming, early ripening—frost protection
- **Use:** Ideal for mechanical harvest, fresh or processed markets
- **Plant Size:** Upright, 4-6 ft tall

Bluegold Blueberry

Highlights: Excellent U-pick and home grower choice

- **Yields:** Highly productive with quality berries for baking or fresh use
- **Growth:** Compact, winter hardy, globe-shaped plant
- **Appeal:** Golden fall foliage and bright-white spring blooms
- **Plant Size:** 4-6 ft tall

Jersey Blueberry

Highlights: Classic heirloom and easy to grow

- **Fruit:** Medium, sweet, dark-blue berries
- **Yields:** High and reliable
- **Adaptability:** Grows well in a wide range of soil types
- **Appeal:** Tall, well-shaped habit for ornamental value
- **Plant Size:** 6-8 ft tall
- **Season:** Late

Blueray Blueberry

Highlights: Popular U-pick favorite

- **Yields:** High production of sweet, dessert-quality berries
- **Growth:** Vigorous, heat-tolerant, and winter hardy
- **Soil:** Prefers acidic soils (avoid high pH)
- **Plant Size:** 4-6 ft tall
- **Season:** Early mid-season

Patriot Blueberry

Highlights: Hardy and highly adaptable

- **Adaptability:** Thrives in a range of soils, including wetter areas
- **Fruit:** Large, delicately sweet berries
- **Appeal:** Attractive blooms, green foliage, and red fall color
- **Use:** U-pick, market sales, or container growing
- **Plant Size:** 3-5 ft tall
- **Season:** Early

Chandler Blueberry

Highlights: Produces the largest berries on the market

- **Fruit:** Extremely large, robust-flavored berries
- **Yields:** Heavy and consistent
- **Harvest:** Long ripening—up to six weeks
- **Use:** Excellent for U-pick and market sales
- **Plant Size:** 5-7 ft tall, spreading habit

Reka Blueberry

Highlights: Vigorous, fast-growing, and productive

- **Adaptability:** Performs well in sandy, peaty, or clay soils
- **Fruit:** Early-season, rich-flavored medium berries
- **Soil Tolerance:** More tolerant of wet conditions than most
- **Appeal:** Striking red and burgundy fall foliage
- **Plant Size:** 4-6 ft tall

Other Berries

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Black Raspberries

Jewel

- **Superb Quality & Flavor:** Glossy black, large berries with rich raspberry flavor.
- **Reliable Yields:** Excellent for jams, jellies, U-pick, and fresh markets.
- **Breeder:** Cornell Small Fruit Breeding Program
- **Zones:** 5-8

Yellow Raspberries

Anne

- **Large, Sweet Berries:** Early-ripening yellow raspberry with excellent size, appearance, and flavor.
- **Highly Productive:** May produce a summer crop on healthy overwintered canes.
- **Use:** Ideal for U-pick and roadside/fresh markets.
- **Zones:** 4-7

Red Raspberries

Encore

- **Vigorous & Nearly Spineless:** Upright, sturdy plants with excellent winter hardiness.
- **High Yields:** Extends summer picking season; suited for commercial growers.
- **Zones:** 3-8

Himbo-Top®

- **Extremely Large & Vigorous:** Firm, bright red conic berries; easy to pick; low fertilizer needs.
- **Organic-Friendly:** High tolerance to Phytophthora root rot.
- **Zones:** 4-8

Joan J

- **Thornless & Easy to Pick:** Large, firm, deep red berries that release well.
- **Productive:** Consistently high yields; summer crop similar to Nova if double-cropped.
- **Zones:** 4-8

Prelude

- **Earliest Summer Crop:** Ripens mid-June; fall-bearing but mostly summer harvest.
- **High Yields & Flavor:** Round-conic berries with cohesive drupelets and very good flavor.
- **Zones:** 4-8

Blackberries

Prime-Ark® Freedom

- **Large, Thornless Fruit:** Upright primocane; early production on floricanes.
- **Use:** U-pick and local markets (not recommended for shipping).
- **Zones:** 5-9

Triple Crown

- **Flavorful & Large:** Ideal for jams, baking, and freezing.
- **Easy to Grow:** Semi-erect, thornless, winter-hardy; extends blackberry season.
- **Zones:** 6-9

Gooseberries

Invicta

- **Highest Yields:** Large, tangy fruit; mildew and frost resistant.
- **Vigorous Bush:** Best trellised; regular dormant pruning improves production.
- **Zones:** 3-7

Red Currants

Rovada

- **Heavy Yields:** Very large fruit on long strigs; easy to pick.
- **Disease Resistant:** Free of mildew; late flowering avoids frost.
- **Zones:** 3-7

Strawberries

25 plants per bundle. Key: **1** = Patented **2** = Unpatented **3** = Open.

Pricing is per variety and per shipment; varieties cannot be combined for quantity pricing. Discounts are based on cases and amounts purchased. Orders placed after April 15 will be accepted, but quantities and varieties cannot be guaranteed. Dates are subject to change based on weather conditions.

Early Season Varieties

- **AC Wendy (1)** Wedge-shaped to conic berries, firm, bright red flesh, excellent flavor. Large berries maintain size through multiple pickings.
- **Galletta (2)** Large, glossy, flavorful berries. Vigorous, productive plants. Tolerant foliage diseases and red stele; grows well in heavy soil.
- **Earliglow (3)** Medium-sized, glossy, very firm berries with “wonderful strawberry flavor.” Excellent for fresh eating and freezing. Vigorous, resistant to red stele.
- **Honeoye (1)** Large, firm berries with excellent color and flavor. Winter hardy, productive, vigorous plant. No soil disease resistance.

Mid-Season Varieties

- **Jewel (3)** Large, high-quality berries with superb flavor. Performs well in varied conditions. Maintain strong plant stand at renovation.
- **Flavorfest (1)** Bright red, flavorful berries that maintain size all season. Vigorous, resistant to red stele and leaf diseases. Suitable for organic growers.
- **Darselect (2)** Large, sweet, firm berries. Vigorous plant with some susceptibility to leaf diseases. Needs proper nutrients for best performance.
- **Yambu (1)** Bright red, glossy, uniform berries. Vigorous, long-fruiting, minimal disease pressure.

Late Season Varieties

- **Cabot (2)** Huge, flavorful berries. Winter hardy, disease resistant. Best for northern locations; early fruits may split.
- **Cavendish (2)** Large, attractive berries over a long season. Excellent flavor. Resistant to red stele; some Verticillium wilt tolerance.
- **AC Valley Sunset (1)** Large, shiny, light-red berries. Ripens 5–7 days after Cabot. Softer skin, ideal for local fresh markets.
- **Dickens (1)** Large, firm, short-conic berries. Ripens 10 days after Jewel. Very productive, good Phytophthora root rot resistance.
- **Malwina (1)** Dark red, glossy, large berries with excellent flavor. Resistant to mildew, tolerant to Verticillium wilt and red stele.

Everbearing / Day-Neutral Varieties

- **Evie-2 (3)** Large, attractive red berries. High-yielding, heat tolerant, easy to grow. Produces largest spring crop of any tested day-neutral.
- **Albion (1)** Very large, firm, conical berries. Excellent flavor. Requires strong irrigation and nutrient program for high yields.
- **Seascape (1)** Highly productive summer/fall plants. Large, firm, flavorful berries. Considered best-flavored everbearer by many growers.

Asparagus

Crowns (25 Crowns per Bundle | 1 Crown = 1 Unit)

Mary Washington

- Classic heirloom with excellent flavor, fresh or cooked
- Heat- and cold-hardy, vigorous, rust-resistant
- Easy to grow; perennial, hardy one-year-old crowns

Purple Passion

- Vibrant purple spears, sweeter and more tender than green varieties
- Best raw or cooked (color fades when cooked)
- Recommended 6-8" spacing; 60% male plants
- Hardy one-year-old crowns

Millennium

- Cold-hardy with tight tips; superior all-around performer
- Adapts to all soils, including heavier types
- Becoming the industry standard for asparagus production
- Perennial, hardy one-year-old crowns; also available in conventional seed

Rhubarb

Cawood Delight

- Deep red, thick stalks; attractive and marketable
- Stout growth; thrives in northern regions
- Less vigorous in high-heat areas
- Hardiness Zones: 4-7

MacDonald Strain

- Vigorous, upright grower with large, tender stalks
- Excellent production; good red color
- Root-rot resistant
- Hardiness Zones: 4-7

Horseradish

Big Top

- Large, vigorous roots; widely adaptable
- Resistant to foliage diseases, rust, and bacterial spot
- Top-performing variety; a few roots last a lifetime
- Hardiness Zones: 3-8

Pricing is per variety and per shipment; varieties cannot be combined for quantity pricing. Discounts are based on cases and amounts purchased. Orders placed after April 15 will be accepted, but quantities and varieties cannot be guaranteed. Dates are subject to change based on weather conditions.

Planting Asparagus Crowns

Most people will turn to planting asparagus crowns when considering how to make an asparagus bed. Planting crowns will establish your asparagus bed faster so that you can harvest the asparagus sooner.

When the asparagus arrives, it will be dry looking. Soak it in tepid water for two to three hours before you're ready to plant. Asparagus planting instructions recommend that you plant the crowns 8 to 12 inches apart. Cover with about 2 inches of soil. Water the bed well after planting asparagus crowns. Be sure to provide sufficient water until the crowns show sprouts.

Garlic and Shallot Varieties

German White Garlic

- Large porcelain-type hardneck
- Strong raw; sweet & mild when cooked

Bavarian Garlic

- Hardneck Rocambole
- Strong heat raw, mellow cooked
- Winter-hardy, stores up to 6 months

Elephant Garlic

- Mild flavor
- Huge softball-sized heads
- Plants grow 4–5 ft tall

German Red Garlic

- Rocambole with brilliant red cloves
- Hot, spicy, rich flavor
- Scapes curl 2-3 times

Music Garlic

- Sweet, pungent, very hot raw
- Great for colder climates
- 4-6 large cloves

French Shallots

- “Banana” style; copper skin, pink-tinged flesh
- Sweet culinary flavor
- Great storage; autumn planting

Polish White Softneck

- Great for braiding
- Hardy, productive
- 6 cloves per bulb

- Orders taken June 30 – September 15
- Delivery 2nd week of October
- Varieties not guaranteed after September 15

Sweet Potato

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Beauregard

90-100 Days

- Rose skin, orange flesh
- High yields, stores well
- Resistant to white grub & soil pox
- Susceptible to nematodes & soft rot

Per bundle (25 plants)

O’Henry (White)

90-100 Days

- Pale copper skin, creamy sweet white flesh
- Great for soups & stews

Per bundle (25 plants)

Murasaki

90-100 days

- Dark purple to burgundy skin
- White to pale-yellow flesh
- Drier, flaky texture
- Slightly sweet & nutty flavor

Per bundle (25 plants)

Covington

100 Days

- Rose skin, supersweet orange flesh
- Excellent for mashing & roasting
- Resistant to Russet Crack & Root Knot Nematode

Per bundle (25 plants)

Bonita (White)

90-100 Days

- Light tan skin, white/yellow flesh
- Uniform roots, good #1 yields

Per bundle (25 plants)

Purple Majesty

100 Days

- High in anthocyanins
- Color remains after cooking

Per bundle (25 plants)

Orders taken End of March – May 15
 Delivery 2nd week of June • Varieties not guaranteed after May 15

AccuBlu™

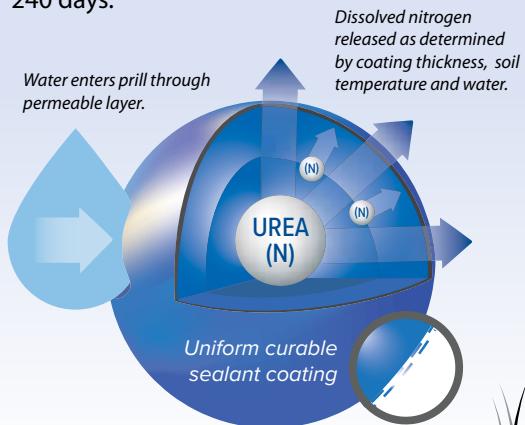

CONTROLLED RELEASE NITROGEN

AccuBlu™ is a patented, coated, controlled-release PCU nitrogen source designed to provide a reliable and predictable source of nitrogen over a specified length of time.

- Precise technology – A patented uniform curable sealant coated nitrogen source providing predictable release over a specified time period. Nutrient release from 45 to 240 days.
- Superior technology – Uniform curable sealant coating allows for a metering of the nitrogen to the plant over the desired time frame as compared to the catastrophic release of SCU.
- Supports and exceeds the BMP recommendations and the 4R Nutrient Stewardship program – right source/right rate/right time/right place.

How it works

Uniform curable sealant coating allows for a predictable metering of nitrogen to the plant over the desired time frame from 30 to 240 days.

Directions to the Long Island Cauliflower Association.

DIRECTIONS: From the Long Island Expressway

Take L.I.E. to Exit 72- bear right onto Rte. 25 East – continue for approximately 3 miles. You will pass the rear entrance to Tanger Outlet Mall. There will be a Dodge Dealership, followed by a gas station and then a large yellow building all on the left. Just past that building make a left onto Marcy Ave. We are the second driveway on the left, before the Railroad Tracks.

DIRECTIONS: From the South fork

Take Flanders Road (Rte. 24) to Riverhead Traffic Circle. Continue on Rte. 24, take the next right to West Main Street. You will see the Riverhead Library, make a left turn heading west on West Main Street, make a right turn at the second right, Marcy Ave. We are the second driveway on the left before the Railroad Tracks.

DIRECTIONS: From the North fork

Take Rte. 25 to Rte. 58 in Riverhead or Take Rte. 48 west to Sound Ave. to Northville Turnpike, make left head south to Rte.58 in Riverhead Continue west on Rte. 58 to the traffic light at Osbourne Ave. Make a left turn go 3 blocks to Marcy Ave. make a right turn. Continue for about ½ mile to Stop sign at Pulaski Street, stay on Marcy Ave. our driveway is on the right just after the Railroad Tracks.

Once again thank you for your continued patronage.
